

TOTAL BATTLE CASUALTIES OF U.S. ARMY 240,197

Includes Killed, Missing, Wounded and Prisoners

WASHINGTON, March 8.—Battle casualties of the American army in France, as shown by revised divisional records, announced today by General March, totaled 240,197. These include killed in action, wounded, missing in action, and prisoners. There probably will be some slight further revision as final reports are received.

The second regular division showed the greatest losses in the revised list with 24,429. The first division came next with 23,973. The 28th Pennsylvania troops led national guard and national army divisions, being fourth in the list with 14,457. The 32nd (Michigan and Wisconsin) was fifth with 14,268.

In the new list the 42nd division (Rainbow) reported a total of 12,252. The 77th (New York metropolitan national army), 9,423; the 26th (New England), 8,955; the 27th (New York), 7,940; the 30th (Tennessee, North Carolina, South Carolina), 6,892.

The battle casualty figures now announced include in the totals wounded, which were not included in the tables of major casualties recently made public by the war department.

Divisional Totals
The list of divisional totals follows: Second (regular) 24,429; First (regular) 23,974; Third (regular) 16,356; 28th (Pennsylvania) 14,417; 32nd (Michigan, Wisconsin) 14,268; 4th (regular) 13,945; 42nd (Rainbow) 12,252; 90th (Texas, Oklahoma) 9,710; 77th (Metropolitan, New York) 9,493; 26th (New England) 8,955; 82nd (Georgia, Alabama and Tennessee) 8,300; 5th (regular) 8,280; 78th (Western New York, New Jersey, Delaware) 8,133; 25th (New York) 7,940; 33rd (Illinois) 7,860; 25th (Missouri, Kansas) 7,745; 89th (Kansas, Missouri, South Dakota, Nebraska, Colorado, New Mexico, Arizona) 7,092; 20th (Tennessee, North Carolina, South Carolina) 6,892; 29th (New Jersey, Delaware, Virginia, Maryland, District of Columbia) 5,972; 91st (Alaska, Washington, Oregon, California, Idaho, Nevada, Montana, Wyoming, Utah) 5,838; 80th (Virginia, West Virginia, West Pennsylvania) 5,133; 37th (Ohio) 4,303; 79th (Pennsylvania, Eastern Maryland, District of Columbia) 3,223; 36th (Texas, Oklahoma) 2,397; 7th (regular) 1,546; 92nd (negro national army) 1,399; 81st (North Carolina, South Carolina, Georgia) 1,285; 85th (North Dakota, Minnesota, Iowa, West Illinois) 63.

Demobilization Figures
Demobilization reports made public today by General March showed 1,361,528 officers and men discharged to date, while the number ordered released had reached 1,615,500.

Up to March 3, departures of soldiers from France numbered 419,555 of whom 354,824 had landed in the United States up to yesterday.

Hospital records from the expeditionary forces Gen. March said showed 81,231 patients on Feb. 20, a reduction from 112,217 when the armistice was signed.

A reduction in the number of demobilization camps from 33 to 23 was announced today, the purpose being to enable the war department to release thousands of men who under the original plan would have been held at the 10 additional camps as demobilization personnel.

The new list of demobilization centers as announced today follows:

Camps Bliss, Bowie, Custer, Devens, Dix, Dodge, Funston, Gordon, Grant, Jackson, Kearney, Lee, Lewis, Meade, Ogilethorpe, Pike, Presidio of San Francisco, D. A. Russell, Shelby, Sherman, Taylor, Travis and Upton.

FIVE BOYS CHARGED WITH ROBBERY
NEW YORK, March 8.—Five boys ranging in age from 16 to 20 are under arrest today charged with assault and robbery following the daring holdup yesterday in the financial district of Milton Strohm, a broker's messenger of Liberty bonds and other securities valued at \$63,000.

The police found the bag containing the securities in a subway station, and the \$49,000 worth of Liberty bonds were found under the floor of a paint shop owned by Edward Andreas, father.

Organization Of EARLY RETURN OF RAILWAYS TO OWNERS URGED

NEW YORK, March 8.—Plans for organization of an international Red Cross to be led by the American Red Cross in a great peace time campaign to prevent disease, relieve suffering and "make the world what the war was fought for—a better place to live in," were outlined by Dr. Livingston Farrand, newly appointed chairman of the central committee of the American Red Cross at a conference of Atlantic division chapter delegates here today.

Immediately after his address which was his first public discussion of peace time aims of the organization since his recent appointment as its head by President Wilson, Dr. Farrand sailed for France to prepare for an international conference of Red Cross societies which will meet in Geneva thirty days after the signing of the peace. The international organization would be proposed at this conference.

Dr. Farrand warned Red Cross workers they would be called on for continued service for a long time after peace had been declared, and announced that a nationwide appeal for funds to carry on the organization's work would be made soon.

Discussing the proposal for organization of the International Red Cross, Dr. Farrand declared the war had shown "that the basis of the Red Cross has become outgrown."

Great Possibilities.
"The war," he said, "has shown that the great possibilities of the Red Cross lie in time of peace. We now propose that the allied Red Crosses and the Red Crosses of the central powers shall all unite for an international movement for the prevention of disease and the relief of suffering."

"The Red Cross home service, originally begun in the interests of families of soldiers," he said, "would extend to all homes in every section where such service is needed."

Similarly, he continued, problems of mortality, child health and tuberculosis would be taken up. This problem will not interfere with the Red Cross war work which, he declared, was "just at its height."

In addition to the work among the men of the army and among the peoples of France, Italy and Belgium, the Red Cross has answered appeals from the Balkans, Palestine, Poland, Russia, Germany and Austria.

Miss Ina M. Taft, director of the bureau of production urged workers to continue production of garments for the war destitute as, setting that at least 1,000,000 garments a month must be provided for a year.

Plans were announced for a national drive, March 24 to 31 to obtain castoff clothing for war sufferers overseas.

JACK JOHNSON BACK IN CUBA

HAVANA, March 8.—Jack Johnson, formerly world's heavyweight pugilist champion, arrived here today from Spain on his way to Mexico City, where he will make his first appearance in a ring contest since he lost the championship to Jess Willard in this city almost four years ago.

Johnson declared that he wants a return fight with Willard "anywhere, under any conditions except those which governed the Havana contest." He would he said, split the purse to suit Willard; winner take all, 75 per cent and 25 per cent, or otherwise.

Johnson looks to be in good condition and said he tips the beam at 225 pounds. The former champion has signed a blank contract calling for five ring battles in Mexico with any opponents who may be selected for him. He hopes to meet Jack Dempsey and others of the best American fighters. Within four months, or after fulfillment of his Mexico contract he expects to visit the United States.

PLAN JOINT DEBATE ON LEAGUE OF NATIONS

WASHINGTON, March 8.—A joint debate on the league of nations will be held probably next week at Boston between Senator Lodge of Massachusetts, Republican leader of the senate and A. Lawrence Lowell, president of Harvard University and chairman of the executive league to enforce peace.

President Lowell has been one of the leaders in advocacy of the league constitution, while Senator Lodge has been equally prominent in the criticism eliminating the financial district of Milton Strohm, a broker's messenger of Liberty bonds and other securities valued at \$63,000.

Sherman Voices Opposition To Nations League

NEW YORK, March 8.—Speaking on the subject of the league of nations at the Republican club here today, Senator Lawrence W. Sherman of Illinois, one of the 37 senators who signed the resolution not to vote for the league constitution as at present drafted said the league in its present form would be a signal fire for warfare in Europe.

Senator Sherman also said that in addition to the 37 senators who signed the resolution others were willing to sign and that if the question were brought to a vote fifty-two senators would vote against it.

Senator Sherman advocated a league "based on the laws of self-defense with a declaration that a great co-operative association as contrasted to a treaty under which 'nine men assembled in some chamber in Europe can send a war to war'."

"The minute you form a coalition of powers who will be signatory members of the league, you drive Russia, Austria-Hungary and the Asiatic countries into a hostile coalition and then we would not have to prepare for war between nations but between two great coalitions," he continued.

"Nobody knows whether Germany will be admitted to the league, but Germany can be just as treacherous in a peace league as she could in a war coalition. There are just as many Bernstorffs in Germany now as before the war, because none of them have been killed."

He said he did not distinguish between the German government and the German people because they were identical.

Defends Filibuster.
Senator Sherman defended his part in the filibuster which prevented passage of important legislation in the final hours of the congressional session.

"When appropriation bills and measures of such significance that they change the whole standard of national conditions are held back until the last ten or twelve hours of the session so that they cannot be read alone studied, even the all the bills might be meritorious, the chances for evil in Europe is that it will not be a Democratic congress."

Senator Sherman favored rights for union and non-union labor condemning a condition under which he said "you can't get a job from a federal employment bureau unless you have a union card."

RIOTS AT KIMMEL ARE EXAGGERATED

LONDON, March 8.—General Colquhoun, chief of staff, who announced the decision of the war department that the army would not be reduced under any circumstances below 509,909 until some law was passed fixing permanent force.

Under existing legislation the maximum war strength of the permanent army is around 298,000. Voluntary enlistments to fill the regular army have been re-inaugurated both in this country and in France, General Pershing having been authorized to transfer recruits obtained from the regular organizations and to release an equivalent number of drafted men. There will remain, however, a deficiency of 200,000. These men therefore will have to come from the forces which the war department had planned to demobilize. The selective service act which many of the men to be retained were inducted fixes four months after the presidential proclamation of peace as the maximum for the retention of members of the temporary forces.

Military authorities foresee no limitation as a result of this limitation, however, feeling certain that the final peace treaty cannot be agreed upon before May. This will extend the enlistment period of the draft contingents to September before which they feel certain, congress will have acted to relieve the situation.

THOUSANDS JOIN STRIKE

San Francisco, March 8.—Hundreds of additional workmen left shipyards in Oakland today according to union officials, joining approximately nine thousand others who previously had quit in the San Francisco Bay shipyards on Saturday half holiday.

Those who previously went out for the 44 hour week were refused work by employers when they returned.

PLAN FORMATION OF NEW HUNGARIAN ARMY

Budapest, March 8.—(Havas.)—Plans have been completed for the formation of a Hungarian army on a volunteer basis. The Hungarian army hereafter will comprise six divisions.

This central organization should direct the operation of the railroads, that the companies themselves, rather than a system of regional directors.

G.O.P. Continues Reorganization Of Next House

WASHINGTON, March 8.—With the selection of new members of the foreign affairs, the naval and post office committee the Republican committee on committees today completed the organization of the principle committees, except rules and merchant marine of the next house of representatives. The Republican personnel of the three committees selected today follows:

Post Office—New Members, Sanders, New York; Dunbar, Ind.; Hardy, Colo.; Hoch, Kansas; Moore, Ohio; Newton, Missouri; and Kendall, Penn'a. Hold-over members, Chairman Stearnson, Minn.; Madden, Illinois; Grist, Penn'a.; Page, Mass.; Woodyard, Virginia, and Ramseyer, Iowa.

Naval—New Members, Kraus, Ind.; Lukin, Mass.; Darrow, Ohio; Stephens, Ohio and McPherson, Missouri. Hold-over members, Chairman Butler, Penn'a.; Brown, N. J.; Britton, Illinois; Kelly, Michigan; Mudd, Maryland; Peters, Maine; Hicks, New York and MacArthur, Oregon.

Nine vacancies on the house foreign affairs committee were filled today by the Republican committee on committees. The new members are Representatives Ackerman, New Jersey; Begg, Ohio; Browne, Wisconsin; Houghton, New York; Mason, Illinois; Newton, Minnesota; Smith, Illinois; Dickinson, Iowa; and Moore, Indiana, to the committee membership. Hold-over Republican members include Chairman Porter, Pennsylvania; Rogers, Massachusetts; Temple, Pennsylvania, and Kennedy, Rhode Island.

Three of five vacancies on the naval committee also were filled the selections being Representatives Kraus, Indiana; Lukin, Massachusetts and Darrow, Pennsylvania. The other two vacancies will probably be filled by Pacific Coast representatives.

Hold-over Republicans on the naval committee include Chairman Butler, Pennsylvania; Browning, New Jersey; Britton, Illinois; Kelly, Michigan; Mudd, Maryland; Peters, Maine; Hicks, New York, and MacArthur, Oregon.

The ambassador said so far as he knew Mr. Robbins was never given an opportunity to present the proposal told the president. In reply to questions from members of the committee, Mr. Francis said it was his understanding that the soviet government did not desire to make a proposal to Great Britain, France and the other allies but wished to conceal the proposal from the governments associated with the United States.

American Army Of Half Million Will Be Retained

WASHINGTON, March 8.—Retention within the army of about 200,000 men obtained originally from the drafts and by transfer from the national guard planned by the war department in building up the temporary military establishment of the nation. This was definitely made known today by General March, chief of staff, who announced the decision of the war department that the army would not be reduced under any circumstances below 509,909 until some law was passed fixing permanent force.

Under existing legislation the maximum war strength of the permanent army is around 298,000. Voluntary enlistments to fill the regular army have been re-inaugurated both in this country and in France, General Pershing having been authorized to transfer recruits obtained from the regular organizations and to release an equivalent number of drafted men. The selective service act which many of the men to be retained were inducted fixes four months after the presidential proclamation of peace as the maximum for the retention of members of the temporary forces.

Military authorities foresee no limitation as a result of this limitation, however, feeling certain that the final peace treaty cannot be agreed upon before May. This will extend the enlistment period of the draft contingents to September before which they feel certain, congress will have acted to relieve the situation.

ELECTED PRESIDENT OF WURTEMBERG

Stuttgart, March 8.—Havas.—Herr Bloss, president of the state council of Wurtemberg has been elected president of the state of Wurtemberg.

The Herr Bloss referred to is probably Wilhelm J. Bloss, a journalist and author. Before the fall of the monarchy he was leader of the Social Democrats in Wurtemberg.

BOLSHEVISTS MUST BE BANISHED BEFORE PEACE

Declares David R. Francis Before Senate Committee

WASHINGTON, March 8.—David R. Francis who went to Russia an American ambassador in 1916 before the overthrow of the monarchy and who remained there until after the Bolsheviks had seized the government, in testifying today before the senate committee investigating lawless propaganda warned that should Bolsheviks be permitted to remain in power all Russia would be exploited by the Germans. Within ten years under such conditions he said, Germany would be the victor of the war in that the nation would be stronger in every way than it was in 1914.

Ambassador Francis told the committee that a complete and thorough understanding of the Russian menace convinced him that with the Bolsheviks in power in Russia, peace not only in Europe but through the entire world was a utter impossibility. He said that even now there was good reason for believing that German and Austrian officers were with the red forces operating in northern Russia and he added that the Germans steadily were getting a grip upon the vitals of Russia and her industries.

Bolshevik Proposal.

Mr. Francis further testified that information had reached him that Raymond Robins, former American Red Cross commissioner to Russia had on his return to the United States carried a proposal from the Bolshevik government to President Wilson. This proposal, he said, he understood was an offer of certain concessions to the American government similar to the treaty of Brest-Litovsk.

The ambassador said so far as he knew Mr. Robbins was never given an opportunity to present the proposal told the president. In reply to questions from members of the committee, Mr. Francis said it was his understanding that the soviet government did not desire to make a proposal to Great Britain, France and the other allies but wished to conceal the proposal from the governments associated with the United States.

Allies Must Stay in Russia.

The ambassador was asked what would happen if American and allied troops were withdrawn from northern Russia and in reply asserted that he was positive the Bolsheviks would sweep in an orgy of murder of destruction on a scale such as the world had never seen.

Reports that the Bolsheviks were sending their agents into Germany, France and England were denied by the ambassador who said he believed that agents in this country thus far had taken the form of money for use in spreading of their propaganda here and among the American soldiers in France.

The ambassador said the soviet government had recently been petitioned not to carry out the denationalization of certain banks, the objects of the petitioners being, he said, to allow German agents to obtain control.

Mr. Francis said it was not true that the mass of the Russians favored the rule of the Bolsheviks and that less than a constantly dwindling ten per cent of the people belonged to the Bolsheviks.

Pictures Reign of Terror

He painted a vivid picture of the terror that reigns in Russia. Many were killed without even charges being made against them and on several occasions the ambassador asserted wholesale killings were indulged in. He said that his observation led him to believe that the Bolsheviks in their every day practices committed excesses far beyond even the wildest dreams of anarchists.

"Anarchists, as I understand them," he declared, "believe only in the destruction of property. The Bolsheviks believe in the destruction of property and life as well for they realize that their only means of continuing in power is by killing all those who dare to oppose them."

Speaking of the Czech-Slovak forces in Russia, Mr. Francis said there was not the slightest doubt but that they were betrayed by Trotsky at the instigation of the Germans. Flat contradiction was given by Ambassador Francis to statements of previous witnesses before the committee to the effect that a free press existed in Russia.

ENEMY CONTINUES ISSUE BANK NOTES.

Washington, March 8.—The state department was informed today by the Rumanian government that the enemy governments were continuing to issue bank notes, printed from plates which they obtained when they occupied Bucharest. The Rumanian government announced it would not recognize the validity of these notes.

America's Claim Against Germany Is \$750,000,000

WASHINGTON, March 8.—Claims filed by American citizens and concerns with the state department against Germany and Austria-Hungary total about \$750,000,000, the state department announced today. Additional claims are expected.

The claims which will run into the thousands are divided into classes, those arising from submarine atrocities and those due to other acts of the central empires. The state department for several months has had a large force engaged in compiling American losses.

Included in the items comprising claims growing out of submarine warfare are losses alleged for death and injury of American citizens; losses suffered in the destruction of or damage to American vessels; losses suffered in connection with American cargoes both in American and foreign bottoms and the loss of much valuable personal property other than cargoes.

Losses due to other acts of Germany and Austria-Hungary include destruction and requisition of American properties both in enemy territory and territory occupied at various times by enemy forces.

The state department's statistics show that American citizens at the outbreak of war had about \$500,000,000 worth of property in enemy countries and in those which have been under enemy occupation. Heavy losses have resulted in connection with this property as a result of war measures taken by the central powers.

NAVAL BATTLE OFF SHAGGERACK DESCRIBED

LONDON, Friday, March 7.—The damage inflicted by the Germans on British battleships participating in the great naval battle off the Skaggerak in the North Sea between Norway and Iceland, on May 31st, 1916 is described by Reuter's Limited today as follows:

"A torpedo struck the Marlborough, flooding one boiler room and killing two men. A twelve inch shell struck the superstructure of the Colossus causing a fire. Another shell burst short, its splinters wounding three men and inflicting unimportant damage. The Barnham was hit five times by heavy shells. One wrecked one of the hydraulic pumps, the auxiliary wireless and the medical store causing heavy casualties among the wireless and medical staff. The damage done by the other hits were unimportant. The Malaya was hit eight times. The siren steam pipe was fractured and a large shell wrecked the gallery canteen and smashed the mounting of one six inch gun. Two of the hits caused a large hole below the armor flooding the adjacent compartments. A heavy shell burst on the roof of one turret and put the range finder out of action."

"The Valiant was not hit in the first part of the action but in the evening was struck by two heavy shells. Both perforated the six inch armor and did considerable damage jamming the helm hard a port and causing the ship to turn circles, during which it was hit twenty eight times. Two guns were put out of action. The casualties were light."

"The damage to cruisers and destroyers will be announced later."

BONUS PAYMENTS TO SOLDIERS DELAYED

WASHINGTON, March 8.—Payment to discharged soldiers of the \$60 bonuses is being delayed by failure of the soldiers to comply with the requirements of the law. War department disbursing officials announced today that thousands of soldiers had sent "true copies" of their discharge papers and that payment of the bonuses would be delayed until the original copies are sent in. In cases where the original certificates have been lost it was stated the original order for discharge must be submitted.

CONTROL OF GERMAN SHIPS NECESSARY

LONDON, March 8.—(British Wireless Service.)—Control of the German ships is a necessary condition to the ending of the German people and the Germans themselves brought about the present situation, declared the Westminster Gazette in discussing the break in the shipping negotiations at Spa.

"Again and again during the last two years," the newspaper adds, "it has been pointed out to the Germans that the destruction of merchant tonnage by their ruthless submarine warfare would produce a situation in which it might be totally impossible to supply Germany herself with the food and raw materials which she would need when the war ended."

SUGGESTS U. S. SEND DELEGATES TO BRAZIL

Washington, March 8.—American Consul Hoover at Sao Paulo, Brazil cabled the state department today suggesting that breeders of livestock in the United States and manufacturers connected with that industry send representatives to a live stock exposition to be opened at Sao Paulo April 21.

MANY SHARP ATTACKS MADE ON PEACE LEAGUE

Former Senator Beveridge of Indiana Criticises Plan

BOSTON, March 8.—The speaking campaign in opposition to the league of nations plan in the form advocated by President Wilson and endorsed by Former President Taft was continued at a meeting that filled Tremont Temple tonight.

Senator Wm. H. Borah, Republican of Idaho, denounced the proposed league as a league of diplomats rather than of nations, with an executive council in which Asiatic and European members could out-vote America on purely American issues.

Senator Charles S. Thomas, Democrat of Colorado, reiterated his conviction that the United States ought not to be committed to a new and far-reaching national policy in advance of a thorough knowledge of every detail involved in so momentous an undertaking.

Former Senator Albert J. Beveridge of Indiana, presided and introduced the other speakers attacked the proposed international constitution as a partnership in which Europe and Asia would furnish the liabilities and the United States supply the assets.

"We are told that we shall disappoint the world if we refuse," (to join a league of nations) he said. "Of course certain European powers would be disappointed, because they have everything to gain and nothing to lose by getting young, strong and solvent American to underwrite their ventures."

"It is said we are now a world power and that we must take up new burdens. We are indeed a world power and we do not intend to surrender that position and become the tail of an international kite. We welcome new burdens if they are legitimate, but we decline those belonging to others which they are eager to unload on us."

"But it is said we went to war to create this league of nations. That is simply not the truth. The truth is that we went to war to whip Germany. That job is done. The next job—the immediate and imperative job—is to make peace and bring our soldiers home."

FUTURE CREDITS TO ALLIES LIMITED

WASHINGTON, March 8.—Future credits to allies now are limited to \$1,158,000,000, the unused portion of the ten billion dollars appropriation according to a report issued today by the treasury. Until peace is declared this balance cannot be loaned to allies for any war purpose but there after for a year and a half credits may be extended only to enable allies to purchase wheat, the price of which has been guaranteed by the United States government.

Eleven allies are now debtors of the United States. Credits have been established amounting to \$8,841,657,000, but \$116,939,000 of this sum has not yet been paid out of the treasury. Great Britain borrowed nearly as much as all other allies combined.

ENRICO CARUSO MARRIED AGAIN.

New York, March 8.—Enrico Caruso the Metropolitan Opera House tenor and Dorothy Park Benjamin were married for a second time today in St. Patrick's Cathedral after the bride had been formally received into the Catholic faith. They were first married in the Marble Collegiate church here, Aug. 20, 1918.

IT'S A GOOD PLATFORM.

"My pledge is that if nominated and elected mayor of this city, that every act of mine will have behind it the one thought 'for the good of Jacksonville.'"

E. E. Crabtree.
Frequently during recent days E. E. Crabtree used the language quoted above. Coming from a man or Mr. Crabtree's known and unswerving worth it makes a platform good enough and broad enough for every man and woman who desires the best things for this city.

Friends of Ed Crabtree are proud of his record as a business man and as a banker. The reputation he has made of helpfulness, integrity and of sterling business worth is one of which he may well be proud and even his enemies, if he has any, must respect.

THE GOOD OLD DAYS.

Election day used to bring good cheer
With good cigars and lots of beer,
There was silver coin and rock and rye,
But now it's only squibs from vox populi.

G. W. D.

both the present incumbent and the incoming mayor and council will fulfill the agreement as stated and written.

In all the stress of war and its attendant hardships and work few men in this locality did more loyal work and accomplished more than Edgar Crabtree. And he did not need the least bit of urging to volunteer his services. In the present emergency in this city he has been drafted and it is up to the voters of the city to register their approval. We have not much fear of the result.

The polls will open next Tuesday at 6 o'clock a. m. and close at 5 p. m. The women who are really interested in the welfare of the city will not be influenced by weather conditions. Even if there should happen to be rain or snow that day, do not fail to vote. And another good rule is to vote early. Again we say, women who vote in the primary next Tuesday are entirely within their rights.

Edgar E. Crabtree says that if nominated and elected he will go into office without having made a promise or pledge other than to work for "the good of Jacksonville" it means that if he becomes mayor he will be in position to give the very best that is in him, working with his associates to meet the conditions as they exist.

The women of Jacksonville have the full right to vote in the primary election Tuesday. The fact that they have not taken part in previous primary elections when they were called upon to take a party party ticket in no way disqualifies them now.

Mr. Crabtree has let it be known that he asks the vote of no man or woman who does not believe in his integrity. If any one believes that he is a political trickster or that he has anything of personal gain, that may come to him thru election to office, the thing to do is to vote for some other candidate.

ROTARY CLUB AND ITS PURPOSE.

That Rotary club—whose motto by the way is "He profits most who serves best"—has been called into prominence by the present city primary campaign. In the constitution and by-laws of every Rotary club there is the provision that the organization as a whole, shall take no part in political affairs.

Members of the Rotary club discuss the questions of public welfare so that members may become informed. They are not dissatisfied from becoming candidates for office and can of course elect individuals to advocate the election of men they believe will serve the best interests of the city. Membership of the club here shows persons of every political belief—Protestants and Catholics—men who meet on a common basis and for the one purpose, "Service." The Rotary club has no apologies to make for any action it has taken.

Edgar E. Crabtree as candidate for mayor has emphasized again and again that he is very much in earnest over this election. He is willing to assume the duties of the office of mayor at a salary of \$1 a year, but that he is not seeking to dictate to aldermanic candidates what they shall do about salary. That is a question for each individual to decide according to his own belief, but under no circumstances will he accept a salary for himself above \$1 a year.

WORTH WHILE STATISTICS.

The statistics which have been available for the government as the result of the selective draft provisions will be beneficial to the country at large. Gen. Crowder believes that the statistics resulting from the physical examination of the 3,200,000 men will save 100 times as many lives as were lost by the U. S. in the war. Out of every 100 men called for service, nearly 30 per cent were suffering from defects which could be remedied with comparatively short treatment. Nearly 17 per cent of the men examined were found totally unfit for military service and it is believed that a study of these defects and the causes leading thereto will result in eliminating a very large percentage of these defects for coming generations.

It is admitted that this good result can be brought about only thru hygiene, campaigns and health education. The statistics simply furnish material for such campaigns and give the medical men the figures they need with which to work.

SERVING WITHOUT PAY.

It is a matter of local history that a number of citizens have served the city "without pay," and no one could question their motives. Mr. Arnett many years ago gave the land for Central park and certainly he had no axe to grind. Another citizen has given the city thousands of dollars in parks and other ways, and there was no selfish motive. When the late Joseph O. King devoted time and money unceasingly to the water works project in the face of opposition and even obloquy, no possible sinister motive could be assigned to him.

The members of the board of education are devoting a great deal of valuable time to school interests of Jacksonville. They are entrusted with larger sums of money than go into the city treasury. The president and members of the board serve without pay and no one can question the quality of their service. The members of the park board year after year have gone on giving freely of

their time and thought for public benefit and without one cent of pay. During the fifteen years there have been several skilled mechanics on the board and the park system has had the benefit of their knowledge and experience. It was this sort of "no pay" service that Nicholas park was developed from a corn field into its present beautiful condition.

FAYORS LEAGUE BUT WANTS CARE TAKEN.

It is worth comment that Senator Lodge has made it plain that while he is opposed to some points in the proposed constitution for the league of nations, that he approves the general idea that the league represents. The senator is an honest critic and his careful reading of his argument makes it clear that he is simply seeking to safeguard the interests of the republic.

Generally speaking, the people in the vast majority are in favor of the league of nations if the principle which is summarized in the Monroe Doctrine can be preserved. In the minds of many people that principle is the basic reason for the growth and prosperity of this country. The U. S. entered this war in the name of humanity and the people are not disposed now to shrink any responsibility. In fact, they desire to act with other nations in any plan which gives promise of avoiding future wars. At the same time they do want to still shun "entangling" alliances.

A PROUD RECORD.

The Y. M. C. A. has many reasons for being proud of its war record and it is interesting to note that the work was carried on at a cost of 57 lives. Some of these fatalities were due to disease, others shell fire, bombs, gas, fever or wounds. The army records show that there were frequent instances where the Y. M. C. A. workers took all the chances of the fighting men in order to give real service to the soldiers in the trenches and on the front of the battle lines. There has been occasional criticism of the work accomplished and the methods used. But certainly unbiased investigation shows that of the 9,000 Y. M. C. A. workers at least 99 per cent were self-sacrificing and conscientious.

A ROORBACK—AND WHAT IT MEANS.

If you happened to read a certain anonymous communication yesterday signed Citizen's Committee bear in mind this definition of "Roorkback" which is according to Webster:

"FOR THE GOOD OF JACKSONVILLE."

As a candidate for nomination for mayor, Edgar E. Crabtree has made only one promise and that one he has reiterated.

"I will tell you this and promise you right now that if I am nominated and elected mayor of this city that every act of mine will be for the sole purpose of what I believe is for the good of Jacksonville."

"The debt of this city is heavy. Any man elected mayor and those who are elected aldermen have difficult problems to face. But I believe that if officials act wholly in the open and take all their questions before the people, that when everybody understands that they are simply trying their best to work 'for Jacksonville,' that many things can be accomplished for the good of this city."

"There is no use in any man promising to you now just what improvements can be made, just how much debt can be paid or indicating any other specific thing. When you have said 'for the good of Jacksonville,' you will agree with me that you have come very near covering the whole field."

ELECT GOOD MEN; THEN SUPPORT THEM.

"Don't sit back and wait for some one else to do your work, and then criticize the job after it is completed, when you were either too lazy or did not care enough about it to help yourself. Another thing. It is a very easy matter to talk about getting a town board, but did you ever notice that the ones who complain the worst are never on the board. You can go to them with the suggestion that they should accept a place, and help care for the village affairs. The answer is quick, 'Nothing Doing.' I can't afford it, or am too busy, but they do not hesitate to rag the man who takes the time and does his best. It's time the people woke up to the fact that if we get the very best material on our town board the people must show interest, and back them up."

Don't think for a moment that your busy citizen is running around anxious to donate his time, and worry about the affairs of your town any more than you are. He may do so for pride of his home town, but he will never be a good citizen. It is his turn, while the people we know about town don't and in this way they have been the rankest kind of slackers, for they have never lost an opportunity to knock those who are doing this work for them."

The above is taken from an exchange but is fairly applicable to many citizens of Jacksonville. For years it has been the fashion or habit of many to criticize and condemn the men they have elected to conduct the affairs of the municipality never for a moment acknowledging a personal responsibility. The only way a town may be built up is by co-operation.

Work with your employees, for that is the position members of the city council and mayor occupy men selected or employed by the people to manage their affairs for a term of years. They are not servants but men you should work with. Use ordinary care, at least, in their selection. A majority vote of the people rules.

When they are elected, whether they are the men of your choice or not, they are the choice of a majority of the people who voted. Did you vote? If you did not you have no right to criticize the action of the men selected. If you did it is your duty to help, by your advice and example, the men selected. Do not condemn or impugn the motives of officials until you are certain of their wrong doing. Give them the benefit of your advice and experience, give them your aid in every way in your power. The property they administer, the affairs they manage are your affairs. When you denounce your home town and the men you have elected to office you are only adding befouling your own nest. You will have a chance next Tuesday. Study the men named for mayor and if you nominate Mr. Crabtree, and will give him reasonable support after his election, we believe Jacksonville will soon be on the up grade and we will have a city and government of which we may be proud.

HEALTH CRUSADE INTEREST GROWS

Competition is Keen Among Children of Schools in Crusader Movement.

Competition between classes in the Morgan county schools is becoming unusually keen, due to the Modern Health Crusader Tournament.

The wall charts in the school rooms, showing the progress of the pupils in keeping health chores, have taken the place of the baseball scores and war maps of previous days.

Because it was thought that children of the lower grades could not fairly be put in competition with those of higher grades, the classes were placed in several tournament divisions, when the regulations for the National Health Tournament were made, and a separate pennant offered to the winning class in each division.

But if Morgan county is a fair example of other communities in the nation, this precaution was almost unnecessary. Pupils in the lowest grades are putting up a remarkably good showing in keeping the simple rules of personal hygiene required. In some cases the little tots have better records than their older brothers and sisters, because they have not so many distractions to take their minds from the chores.

From the fifth grade up, the age of the pupil has but little to do with his chances for perfect scores, and so acute has the contest become among some of the Crusaders that the National Tournament is almost lost sight of in the class rivalry. The teachers, who are directing the Tournament here, have been somewhat surprised to note the close attention being made to the local contests, but are favorably inclined to it as it aids the chances of Morgan county for getting the national pennants.

"It is so much the better that the Crusaders are becoming excited about comparing class records," said one of the teachers here today. "The national contest will take care of itself if the children bend their efforts toward outdoing each other, for it is the combined efforts of the individuals which will make up the national and state records."

In addition to separate pennants being awarded according to grades, a banner will be given to the ungraded school which makes the best record in the United States during the Tournament period, which lasts for fifteen weeks, ending May 24. Every class in a graded school and every school, public, private and parochial, is eligible to the National Tournament, subject to the official rules. Because there is more chance that there will be a child who is careless in performing his chores in a class with many pupils than in one in a few, separate tournament divisions, each with its own pennants, have been established for classes with not over 24 pupils and for those over 24 pupils.

All in all there are nine tournament divisions, including children from the first grade to the second year high school. No kindergarten child or third year high school student is eligible to enter the National Health Tournament. The nine divisions are as follows:

1. Ungraded schools.
2. Classes in first and second grades with less than 24 pupils.
3. Classes in first and second grades with more than 24 pupils.
4. Classes in third and fourth grades with less than 24 pupils.
5. Classes in third and fourth grades with more than 24 pupils.
6. Classes in fifth and sixth grades with less than 24 pupils.
7. Classes in fifth and sixth grades with more than 24 pupils.
8. Classes in seventh and eighth grades and first and second grades of high schools with less than 24 pupils.
9. Classes in seventh and eighth grades and first and second grades and first and second grades with 54 pupils.

ILLINOIS COLLEGE

WINS CHAMPIONSHIP

Blue and White Five Takes Honors in Second Division After Losing First Game — Won Final Game from McKendree 27 to 21.

After getting a bad start by losing to Hedding in the first game of the state basketball tournament at Bloomington, Illinois College came thru with flying colors and fought their way to the finals where she defeated McKendree for the championship of the second division.

The Illinois men seemed to get their bearings after the first game and scored their first victory over Carthage. This seemed to give the men lots of "pep" and they repeated by administering a defeat to Hedding Saturday morning while McKendree trounced Charleston Normal in the other semi-final.

Up to the final Saturday evening Illinois has sustained two defeats in the hands of McKendree and the victory was all the sweeter because of this.

ASK YOUR GROCER for

This flour is made on the American Midget Mill by an original process that retains all the nutriment and most of the flavor and strength that the ordinary long system roller mills wear out of the flour.

Owing to this new Short System of milling the aromatic oils which remain in the flour and which are evaporated and oxidized in the ordinary long system mill with its great amount of handling from this mill are retained in the flour. The mill is very sanitary, entirely self-contained and your inspection of it will prove interesting. We will be glad to have you pay us such a visit. We have been manufacturing The Flavo Flour now for the last month and we have put lots of it on the market and all who have used it once always buy it again. Ask your grocery dealer for Flavo Flour.

Coach Harmon in talking with the Journal over the long distance telephone Saturday evening said the Illinois men never played a better game than in the final. Every man did his best work and that there was team work at all stages is shown by the fact that every man on the team broke into the scoring column.

The coach finished the game with the same men that he started with. All of them did excellent work. This was especially true of Antrobus. This player was taken down with the flu early in the season and never had an opportunity to get into the game until recently. His work in the tournament games was such that had he been in the game all season Illinois would have been able to lackle any of the fives in the Little Nineteen conference.

Tomlinson, Farrell and Mutch played consistent games and Andrew played in whirlwind fashion throughout the entire tournament. Harney and Swain when they were given the opportunity also fitted into the machine in good fashion.

In the semi-final game with Hedding, Andrew was sent to the sidelines for personal fouls in the last three minutes play and Harney took his place. Coach Harmon replaced Farrell with Swain in the middle of the second half in order to save the former for the evening game.

P. E. Farrell and T. M. Tomlinson went to Bloomington Saturday afternoon and arrived in time to see the second half of the McKendree-Illinois game. The men will return home on the Alton this morning at 10 o'clock. The scores:

CLAUDE GROVES HOME FROM OVERSEAS DUTY

Morgan County Young Man Honorably Discharged from Army After Nine Months' Service—Was Wounded by Machine Gun Bullet.

Claude Groves, one of the boys from Morgan county, is home again from overseas with an honorable discharge. The young man went with the 39th division, 128th Infantry, last June and landed first at Camp Taylor where he remained three weeks and was then transferred to Camp Beauregard, Louisiana and thence to Camp Merritt, New Jersey. The 23rd of August he sailed for France landing at Brest and thence went to St. Florent where he was transferred to the 32nd Combat Division in the replacement company and went to Duer sur Merel and was then at the front and in the thick of the fight.

On the 10th of November his command was ordered to advance and resolutely the boys went in defying the enemy who deemed them soft and easy marks. Soon they found their mistake when the Yankee boys went after them without an indication of halt or fear. It was early in the morning when the command was after the Germans that a bullet from a machine gun went through both of Groves' legs above the knees but fortunately missing the bones inflicting only flesh wounds. These were bad enough and hard to bear for the young hero who had hoped to bag a few Huns and show them how a Yank will fight but it was to be otherwise.

He was carefully taken up and carried to base hospital 94 where he received good care and at the end of two months was able to leave and today he walks without a sign of limping. He was transferred to various camps and sailed Feb. 6th for home landing at Newport News and then was taken to Camp Grant to be discharged. His father has removed to Airdrie, Alberta, Canada and after a visit here with friends he will go to his parents.

MANY NEW SPRING GARMENTS ARE BEING SHOWN, AT HERMAN'S.

WITH THE SICK

Mrs. J. H. Zell will be removed to her home on South Main street today if the weather conditions will permit. Mrs. Zell has been ill for the past seven weeks and her recovery is now gratifying to her many friends.

Clarence Reid, who has been ill for nearly two months at his home on West Lafayette avenue, is now well on the way to recovery.

MORTUARY

Milburn. Mrs. Millie B. Davis of Richards street, received the sad news yesterday of the death of her sister-in-law, Mrs. Rachel Milburn, which occurred at her home in Washington, D. C. The news was not unexpected as Mrs. Davis received news of her relative's illness several days ago. Deceased was the wife of Mrs. Davis' brother, S. M. Milburn, one of the employees of the Treasury department in the national capital for the past twenty years. It is probable the remains will be taken to her former home in Galesburg for burial.

FIRE AT STATE SCHOOL FOR DEAF.

At 2 o'clock Saturday afternoon the fire department was called to the detention hospital at the State School for the Deaf where fire had started from a defective chimney.

When the department arrived the pupils had removed most of the contents from the building and were holding the fire in check with hand grenades. The blaze was extinguished with the chemical and the damage will be slight. The state carries its own insurance on all state property.

FORMER RESIDENTS VISITING HERE

Alfred Cassell and wife arrived in the city yesterday from Salt Lake City, Utah, and will spend some time here visiting relatives. Mr. Cassell learned telegraphically in the local Western Union office and is now in charge of the multiple department of the Western Union at Salt Lake. Mr. Cassell has about forty persons working in his department and is one of the few experts on the automatic transmitting machine.

J. HOWARD SMITH DIED SATURDAY

Well Known Young Man Succumbs to Attack of Typhoid Pneumonia—Funeral Services Monday.

J. Howard Smith of 843 Case avenue died at Our Savior's hospital at 4 o'clock Saturday morning after an illness of several weeks. He was first stricken with pneumonia and later typhoid fever set in. In his weakened condition he fell an easy victim to the fever. The everything possible was done death finally relieved him of his sufferings.

Deceased was the son of J. R. and Lou Vieira Smith and was born in this city August 2, 1892 and his entire life was spent in this city. He was united in marriage in Pekin, December 6, 1913 to Miss Stella Cruise.

He is survived by his widow and one daughter, Doris Allen. He also leaves his parents and two sisters, Miss Pearl Smith and Miss Aileen Smith all of this city.

Mr. Smith early in life entered the employ of J. Capps & Sons and learned the weaver's trade. With the exception of a short time he worked at Hanover he has always been in the employ of that firm. He was popular with his fellow workmen and held in high regard by his employers.

He was an active member of Northminster church and also was a member of Urania Lodge No. 243 I. O. O. F., Modern Woodmen No. 912 and the Loyal Order of Moose. In all these orders he took an active interest. He was a young man of fine personal character and one whose going will bring sorrow to many. His family will have the sympathy of all in their great bereavement.

He remains were removed to the undertaking parlors of W. W. Gillham and prepared for burial and later were taken to the home of his parents 834 North Church. Funeral services will be held from Northminster church Monday afternoon at 3 o'clock in charge of the Rev. J. H. Morphis. Burial will be in Jacksonville cemetery.

YOUNG MARINE IS HERE ON FURLOUGH

George A. Harney, who has but recently arrived from overseas service, is spending a thirty day furlough at the home of his parents, Mr. and Mrs. Charles Harney in Woodson. This young soldier has been in the army for almost two years, having enlisted in the marine service in June, 1917. He went to France in October of the same year and was on the firing line for forty days. He sustained a wound in the neck, was gassed twice and was operated on for appendicitis. When he was taken ill with appendicitis and removed to a hospital he was lost sight of and was reported missing in action and was afterward reported killed in action.

Young Harney sailed from France Feb. 6 on board the Pocahontas and arrived at Newport News Feb. 19, and was later transferred to Ft. Quantico, Va. He has not yet received his discharge from the service, this fact being due to the loss of his papers. He is looking well and is very glad to be at home again. The young man's parents have written him once or twice each week, but he has not received a letter since last July. He has several medals, among them being the Legion of Honor, a French medal.

Needless to add the young soldier is very proud of these badges of honor.

RETURNS FROM BUSINESS TRIP

L. Foster Hitt returned Saturday from a business trip to Panama, Ill. In conversation with Mr. Hitt he states that business is good in Panama, that although the mines are not working full time no ill effects are noticeable as the miners have enjoyed large earnings in the past. Mr. Hitt said that in a talk he had with Chas. Law, proprietor of a chain of theaters in Panama and No. 10, it was learned that business in their line was away "over the top." Two of Jacksonville's former musicians are playing in these theaters: Dudley Hitt, violin, leader and Robert Boyd, piano, and Wm. Higgins, drums. Frank Reid, who has recently taken employment at the Fairbanks Undertaking Parlor, is another member of the Jacksonville colony at Panama.

The New Water Works Plan

Are we for it? We are, especially the lake!

We used to live near a real lake and have been more or less homesick for it every since. We moved away. When we used to feel a little blue we have gone out to Morgan Lake, and once tried a boat ride, but got so dizzy going around in a circle had to go ashore.

One afternoon during the bathing season we went out and sat on the bank and every time a fat person went in we had to move back, yet that lake looked good to us, even when it was dry.

When we get that big new lake, the people of Jacksonville would not be willing to do without it for five times the cost. Besides supplying the city with good, pure water, it will, and should, be a city play ground. It will get you away from the worries of home and business and make you think of other things than money and work.

Every one should play, and the man or woman who does not is usually a disagreeable person.

To the man or woman who never has time to play, I would suggest that you stop long enough to think this over—No matter how busy you are, how rich you are, how poor you are, how good you are, how bad you are, or how important you think you are, you will some day take that long journey from whence no traveler ever returns, the world will move on just the same, and with the exception of your nearest relatives you will never be missed.

E. E. CRABTREE.

31ST ANNIVERSARY OF BIG SNOW STORM

Hon. Thos. Worthington called the attention of the Journal to the fact that Saturday marked the 31st anniversary of the great snow storm in New York City. On that date, March 8, 1888, the snow completely stalled traffic in New York City. Senator Roscoe Conkling, one of the famous men of that day was down in the business district and started to walk home. He arrived home but died as the result of exposure a short time afterward.

Why I Am Supporting E. E. Crabtree As
Candidate for Mayor

(By a Jacksonville Minister)

FIRST—Because he is a man of character. No unbiased person will deny or even doubt the unswerving, unpurchasable integrity and character of Mr. Crabtree. If in this campaign he has enemies a study of their lives and motives will more thoroughly establish his character.

SECOND—Because he is honest. In the activities of human life, including the business of a city, honest leadership is absolutely essential. The great cry of municipalities is for leaders who will be honest and honorable in the conduct of the city's business.

THIRD—Because of his record in war work. No person will attempt to dispute the fact that Mr. Crabtree has served efficiently and acceptably in all war work campaigns. Only a modern Ananias would even suggest that he ever received a single penny for such service. Doubtless he spent several hundred dollars that he might do this work, and this does not include the money lost because of his absence from business for weeks at a time. A man's record in war work is a splendid indication of his patriotism.

FOURTH—Because of the confidence which the citizens of Jacksonville have in him. In this city we need cooperation, and loyalty and cooperation come only thru confidence. People will not follow the leadership of a man whom they distrust, but they will gladly follow and support a leader when they have confidence in him.

FIFTH—Because he is broadminded. A candidate may have all the other qualifications but if he is a man of one idea he is unfit for any public office. Mr. Crabtree will not be a fanatical reformer.

SIXTH—Because he is capable. He has succeeded in mercantile business and as a banker and his success has not deprived him of the honor and respect of his fellow citizens. We have his word that he will conduct the affairs of this city as he has conducted his business. Care and good judgment have characterized his business and this means a sane, business administration in Jacksonville.

SEVENTH—Because he has not sought the office. Hundreds of the good citizens of Jacksonville insisted that he, contrary to his wishes, should be the candidate for Mayor of this city. A man of honor who accepts a public office as the gift of a city will consider that public office a public trust.

CATHEDRALS OF FRANCE
DR. LANGTON'S THEME

Woman's Club Members and Guests Heard Excellent Address by Dr. J. F. Langton Saturday Afternoon—Twelve of Europe's Noted Cathedrals Described in Masterly Way.

The talk on "The Cathedrals of France," given by Dr. J. F. Langton Saturday afternoon to members of the Woman's club and their guests was one of the best of the many excellent ones that Dr. Langton has given in this city. The program had been arranged by the art committee of the club and was enjoyed by an audience of good proportions.

It was a source of regret to all that the musical program which was to have been given by the Illinois College Glee Club was necessarily postponed. The president, Mrs. Miller Weir, presided and Mrs. W. D. Doying, the secretary, read the minutes of the previous meeting. Then in a few brief sentences Miss Maria Fairbank introduced the speaker of the afternoon.

Dr. Langton prefaced his lecture by the statement that the sum of \$15 which the club was to pay him would be given to the Free Kindergarten, and on behalf of that institution he thanked the club members.

Two Styles of Architecture. In his introductory remarks Dr. Langton said that he had visited about sixty of the cathedrals of France. He said there were probably a hundred in France which were worthy of description, but that he had selected twelve of those he considered most noteworthy. In any study of cathedrals, he said, must be taken into account the evolution of architecture, from the Gothic or ecclesiastical style, to the Renaissance or what might be termed the secular style.

The distinctive feature of the Gothic is the pointed arch. Its earliest adaptation was probably about the ninth century, and its most flourishing period between the twelfth and sixteenth centuries. The Renaissance, beginning in about the fifteenth century, did not seriously affect the Gothic for a considerable period. The speaker gave a brief description of the various parts of a cathedral, the apse, nave, altar, the facade the crypt and the gables, and recalled the theory which led to the placing of the latter on the top of the structure. Only a few extracts from Dr. Langton's address are given:

"It was Robert Louis Stevenson who declared that man was never more inspired than when he made a cathedral, and that he had never heard a sermon that was so expressive as a cathedral. As you study the cathedrals and think of the spirit in which they were built, and how the people put their lives into them, your opinion of cathedrals will undergo a radical change.

We are told that cathedrals were built in an age of faith and that that age is forever gone. Nothing could be more misleading, for great cathedrals are now in course of construction in many of the large cities of this country. An interesting account of how the great cathedral of St. John the Divine happened to be built in New York was given. This minister has been twenty-seven years in course of construction, and \$14,000,000 have already been invested.

Cathedral at Amiens. The cathedral at Amiens was the first mentioned of the French, and Dr. Langton read a description of this building from the book, "The Land of the Fleur de Lis." This cathedral is 170 feet in length and 360 feet high to the top of its spire. The minister at Amiens was referred to as one which is regarded by many as the most beautiful in the world. It was

built in the twelfth century, is 385 feet to the topmost pinnacle and 438 feet long. Then the cathedral at Tours was briefly described as a were those at Marselles, Rheims, Rouen, Notre Dame in Paris, and the American cathedral in France. The latter edifice was established by some rich Americans and supported for some years by the membership of St. Bartholomew's church in New York.

When France entered the great conflict, the American church was cleared of all its furnishings and used as a resting place for sick and wounded soldiers. It is said that 183,000 soldiers were given shelter in this church during the years of the war.

In referring to the cathedral at Pisa Dr. Langton said: "The only thing I want to tell you about this edifice is this: In the early days of Italian Christianity they thought the most wonderful thing was to be buried in Palestine. As that was impossible, they brought 56 loads of earth from the holy land, and so all the people who are buried around about that cathedral lie in the sacred soil of Palestine."

Other cathedrals mentioned were St. Stephens at Budapest and that at Athens. At the entrance to the latter is a block of granite which bears this inscription: "On this block of granite sat Jesus Christ in Cana of Galilee when he turned the water into wine." Dr. Langton said he had no great love for relics, but he found himself going to that place over and over, and on the last day of his stay knelt with others and kissed the stone.

Greatest Piece of Architecture.

Continuing Dr. Langton said: "The great cathedral of St. Sophia at Constantinople, built in the fifth century is by the testimony of every human being who has seen it, the greatest piece of architecture in the world. For majesty of proportion, for harmony of outline, and all the extravagant terms you can apply to any building, this minister stands alone. On the capture of Constantinople by the Turks in 1453 St. Sophia was appropriated as a mosque and has since been put to that use. I believe that the over and that this great cathedral will return to its own at no disreign of Mohammedanism is tant day."

At the close of the address Mrs. T. J. Pitner and members of the social committee served refreshments and a time was spent in a pleasant social way. It was announced that the April meeting of the Woman's club will be held Friday evening, April 11, at which time Mabel Preston Hall will appear in a musical program at Northminster church.

"With the Colors"

Letters of Interest from Morgan County Boys in the Country's Service.

The letter follows: January 30, 1919.
Dear Folks:

I am again settled down and writing home again. My Uncle Sam has given me a seven day leave so I am rather enjoying myself at the present time. I put my name in for a leave of absence a couple of weeks ago, but I did not get it on account of another fellow talking me into the notion. And don't you know, to my surprise my name was on the list to go. And this corporal that got me to turn my name in who wanted to go so badly, his name was not on the list. So as soon as I found that out I went and asked not to go so as to let this other fellow have a chance, so he got to go as he had planned to do.

So things went on for about two weeks when another fellow and I took a notion that we wanted to go to a little nearby town by the name of Tonnerre and before we could do that according to military rules and regulations we had to have a pass. So this other fellow insisted that I see the captain about our passes. Well I just up and went to the captain. He signed our passes and sent them to regimental headquarters. But somehow they were not approved and so I only had a bad day on that deal. But it was not over half an hour until a runner came to me and said that the captain wanted to see me. Well I didn't know of anything wrong that I had done him or anyone else so far as that goes. So I was a punishment ought not to be very severe. So to the captain I went. When I got there he says "Corporal do you want to go on leave?" I said "Yes sir, captain." He said "All right, that there was a vacancy of one man in the number to go on leave so headquarters sent word to Co. F for one man." I was what he sent.

So Monday morning I started to hike to Tonnerre where I was to catch the train. But before I got started the captain said that this was a special leave and as no real leave train was to be along for this time we would have to pay our way down to where we now are. I was to be only about six francs. I of course wouldn't hesitate a minute on that little sum. When I got to the station I found several from the 36th division going the same way. None of them had tickets so I concluded I would try my face, and we did not have a word said to us so I guess it was all right. Well in fact we didn't much care.

We started at about 11:30 o'clock and arrived at Lyons about seven that evening. Had to stay over night there, so off we went to find a place to sleep. We went to the best hotel in town, The Bristol, and got us a nice place to sleep. It only cost us twenty francs each for our accommodations which was a place to sleep, for about five or six hours, as of course we had to take in a few of the sights in town before we adjourned for the night. The fellow that slept in the room with me said that he could hardly sleep at all. I told him that he should have put a hob nail shoe under his head for a pillow which was there. We had feather beds with goose hair pillows. Rather a change you see. But I realized that I was sleeping away thirty five cents an hour so I guess that was partly the cause of my good sleeping.

Well the next morning we got up and I rubbed my eyes a little as I had been asleep. The other fellow did not have to go to that trouble as he had not slept. We got on the train and after we had gotten well out of town we found that we were riding in a first class private car. But we made up among ourselves that if the conductor came around that we were going to let on as though we could not understand and tell him that this was good enough for us and nothing was said.

Aix les Bains, where we now are, is a great summer resort. There is a railway up to the top of Mt. Revard whose altitude is 5,070 feet. I went up yesterday afternoon and found it a very pretty place. There was about a foot of snow on the ground, but not very little. I put on a pair of skis. The first time I started down I had not gone far until the mountain raised up and hit me in the face. But I soon got on to the job and found it a great pleasure.

The Y man takes us around about every day and shows and explains old buildings and rocks and such as that. He tells us of an old Roman arch built thousands of years ago, an old bath tub made of a large rock, made 125 B. C. I told him that was farther back than I could remember. Also showed us what is called the seven springs. They are back in a mountain when found. The engineers dug their way thru solid rock for 300 feet and what they struck downed two of the engineers and almost flooded the town with hot water. But now they have it under their control. The well is at the farthest distance in and it is about four hundred feet deep. This water is 115 F. all of the time. They have a bath house here with all kinds of baths upon the second floor, hot water from the springs, when P. Pierpont Morgan used to bathe. I suppose by the bath being so handy he took a bath once a year whether he needed it or not.

The Y has the large Casino for the use of a Y. M. C. A. and it is sure a fine place. They say it is next to the largest in the world and is where Harry Thaw used to have some of his great times. They have shows every night, vaudeville mostly. Well I had better travel toward my hotel as I think it is about supper time, and I sure am not going to miss one of those meals. Just think, eat on real plates, and don't hear that everlasting bugle; sleep in real beds, etc. Mrs. Beebe of New York as a Y. girl, was sitting by me a few minutes ago and said, "Is there not a great deal of difference writing on one of those tables than on your mess kit, gash mask, etc.?" I just said, "Yes ma'am," and kept on writing. I finally got to talking to her. I talked to her for quite a while and asked her how she liked France. She spoke up very quickly and said, "Oh, fine." I never said another word to her.

I will try and finish this letter. I laid it away the other day and almost forgot it. I am writing some tonight instead of going to the entertainment. They are having a few boxing matches and I am not very much interested in that. And anyhow I went to a good show this afternoon. A fellow came out and was telling to his pal some of his experiences in the war. He had his rifle with him, telling how he met a German. He said that he met this German, had his rifle on guard and the Hun immediately threw up his hands and hallowed "Kamerad," and says "I am a Christian." And his pal says, "What did you do then? Let him go?" He says, "no sir. I told him that I didn't know what he was, but if he was a Christian, I am going to promote you to an Angel."

I went across the lake yesterday and took a look at the old Castle of Abbaye. It was a trip sure worth the while. We are trodding on land that was trod by the old Romans. I guess it is a great deal like a couple of soldiers I heard about. One says to the other, "Do you realize that you are standing on the same ground that Moses once stood on?" The other fellow turned around and says, "Moses who?" I guess we do not realize how much we ought to appreciate the privileges we are having. But, say, I don't care what is to be or what has been. If they would send me word to meet the 36th Division at Bordeaux I believe I could beat the fastest train they have there and me go on foot.

I have not been homesick a day since I have been over here. But I would go home if they would say so, rather than have a court martial for disobedience of orders. So when they say it is my time to ride the waves I am ready. I just got an invitation to go have some hot chocolate so I am going foot sweet. So bye bye. Tell all hello and answer soon. From your brother, Corp. Arthur E. Johnson, Co. F, 142nd Inf., A. P. O. 796, France.

FROM PRIVATE R. N. WOODS.

Mr. and Mrs. Robert Woods, have received the following letter from their son, Private Robert N. Woods with the army of occupation in Germany. Puderbach, Germany, Jan. 26. Dear Folks: This leaves me fine and dandy and hope it finds you all the same. We had some snow today. It isn't cold here, but is just fine. I told a friend of mine I wished it would snow 4 feet on the level. He said he didn't because we couldn't get out to get our meals. That is about all we have to think about here. I think the Germans elected their president today. It can't be so very long until we will all be traveling home. Bully for that. You said you were in hopes I wouldn't be sent to the Rhine because I might not

get home so quickly. I figure I will get home sooner, anyway. We are better taken care of here. When the fighting was going on, You asked me if I knew Albert Yarding. I should say I do. We went to Camp Taylor together, were in the same barracks, and went to the mess hall together every day. He was a good friend of mine.

When we were transferred to Louisiana we were separated in different branches of the service. I did not see him any more there. I was then sent across and didn't hear any more of him until I was put in H. D. Q. Co. We were in the mess line, I had not gotten mine yet and I saw him sitting down by a big shell shot tree eating. His whiskers were long, also his hair and his clothes all torn. I hardly knew him. That was when the division moved back from a 21 days' front to rest. I got up even with him and he looked up and saw me. Down went his mess kit and he ran to me. He was fat and arms then and there. He was fat and fine only had a world of coddles He got them all off before we went back on the front. We had a good time there in that woods for a week, only when old Fritz dropped bombs on us.

I saw Albert afterwards on the front. One day I ran on to him in a little town the boys had just taken. We were talking and the shells were coming heavy. He took out his canteen to take a drink, and about the first we got it to his mouth we heard a shell coming. I fell flat but he failed to get down quick enough. It burst close and a piece of shrapnell struck him in the wrist. I had not had that canteen up drinking it would have cut his head off. You see, I was with the Red Cross then so I showed him the way to the first aid station. Next day I dressed the wound and the next day he went to the hospital. It wasn't but a few days then until the fighting was over and I was so lucky and didn't get touched so I was thankful. It was as Yards said, this war was worth millions to us in a way, but I would not go through it again for all the money in the states or over here. Love to all Private Robert N. Woods, D. Co., 128 Inf. A. P. O. 734.

Corp. Huffman Writes From Overseas.

Mrs. W. P. Smith has received from her nephew, Corp. George L. Huffman at Savenay, France, Convalescent Camp A. P. O. 939, Hospital Center, the following letter. Corp. Huffman is a Cass county volunteer and has a number of friends in Jacksonville and Morgan county. He is the son of Mr. and Mrs. Wm. Huffman of Arenzville.

January 31, 1919.
My Dear Aunt Marian: I was very glad to get your letter, which was also full of love. Mama also sent me the letter you sent her in which Albert likened you to Champ Clark. The first I got, I received seven letters in one day from you and mama. Have been in quarantine with the mumps for the past two weeks. Am getting along fine; in fact am nearly over them. How is everyone around you? Uncle Billy and the rest of the family? Am going to try to write Nellie and Harry right away. Have not written as much as I should. I should have written long ago, but I got no letters. I have an idea there is a big bunch of mail for me some place in this country. I may get it some time and I may never get it. Did not like it very much here at first but I have got to liking it fairly well. Would like it much better I imagine if I could talk to the people. It is really a pretty country. If you forget how homesick you are for the old U. S. A. Don't ever think though, but what I'm coming back to U. S. the first chance I get. Some times think if we lived back home like the French do, the health officers would get after us. One end of their dwelling they live in; the other end the stock live in, mostly cattle. Always a water hole close by and you can picture how sanitary such a place would be. Oh, well, it all depends though, I have come to think on how one has been raised. The French have been raised that way and you and I have been raised differently.

Have had no very cold weather this winter, excepting during the first of November, one little snow this week, the first snow and it melted right away. We have many rainy days though. It rains about six days out of every seven days as a rule. Most of the time one has not needed an overcoat, while walking, although never safe without a raincoat. The climate being mild is due to the warm gulf stream so near the shores of this country.

This place is about 450 miles farther north than home. Other of the French customs seem strange to us. Their use of hedges for fences, and the two wheel cart instead of wagons. Fields of collards and turnips, are a few of the things that were odd to me at first. Base 8, as we commonly call it, or Hospital Center consists, I think, of nine base hospitals in one group here at Savenay, and is considered, I am told, one of the largest hospital centers. Have been told it could care for something like thirty thousand patients and patients are sent here from field hospitals for treatment before being sent home. Lately they have been sending a great many from here home every week. Nearly all, though, are men unfit for duty, or those wounded. The camp I am in belongs to the group.

I do not know when I will be sent home. I think at times it would like to see more of France, before I go home. But expect I won't get to as it is pretty hard for a soldier to get a pass, for very long at a time. Oh, well, there are lots to be seen back

home, if one will take the trouble to do it. Have a Morgan county farmer in charge of the ward I am in. He is from Murrayville. A pretty good fellow. Well, must close our loving nephew, Corp. George L. Huffman.

From Wag. F. R. Fairfield.

Mr. and Mrs. James C. Fairfield have received the following letter from their son, Wagoner F. R. Fairfield, with Supply Co., 52nd, Inf., in France.

Dear Mother and Father: I will write a few lines tonight. I am feeling very well and hope this finds you all feeling better. I was paid again today, and that will help a great deal. I drew \$5 francs this time, which was the December pay. I have 200 francs, saved down which I am going to try to keep. I am eating cookies and candy as I write this, and my hand is cold, so I don't know whether I am spelling the words right or not, or whether you can read it or not.

I received your letter of Dec. 2 a few days ago. I wish I could have been there to help eat that goose. He must have been a good big one. We had a very good dinner Christmas day. Have you received any allotment yet made in your name? Has "Doug" learned to sing that song. Tell him not to forget it before I come home. I suppose the Mids had a fine time with the Christmas tree. Did Aunt Alice and Leonard spend Christmas with you? I suppose Jimmie is getting his

strength back by this time. I am getting cold and I will have to quit until tomorrow. Monday Jan. 29—I will finish this letter while it is a little warmer. The sun has been shining a little today and everybody feels better. I have worn rubber boots ever since about the 10th of December. Have not had a pair of shoes on during this time, so you know it has been raining quite a little. Are my boots still there or have you used them? You ought to see me. I haven't had a hair cut for about three months and my moustache hasn't been trimmed for about as long. I look just as if I had come out of the woods. Our barber is away on a pass, has been away about three weeks.

We don't know when we are going home but everybody hopes it will be in a short time. Have any of the Jacksonville boys been mustered out yet? I heard that some were back in the states. Well, I can't think of anything else to ask about, so I will close for this time.

From your son, Floyd R. Fairfield.

Why Every Woman Should See

Ailen Holubar's Mammoth Screen Masterpiece

"THE HEART OF HUMANITY"

It is the only drama that ever sounded the depths of woman's love — mother-love, wife-love, sweetheart-love. It is a moving, thrilling monument to the most tremendous emotions ever experienced by womankind.

The Agony of War Farewells And the Ecstasy of Peace Reunions

It is the story of the mother's tragic glory in the gift of four sons to the cause of humanity. It is the appealing throbbing love drama of the girl who followed her husband into the maelstrom of Flanders.

It has the most remarkable "close-ups" of trench fighting ever recorded by the motion picture camera.

It shows the saintly care of European war orphans by the Red Cross. It pictures the awful peril of the nurse who falls into the hands of a lust-maddened Prussian officer. Her rescue by her lover in

The Most Exciting Climax in Motion Pictures

It contains the rarest child actors ever caught by the camera, in scenes of sweet humor and pathos. Against beautiful love themes it throws hideous war scenes with terrific dramatic skill. It will live forever as the greatest depiction of the sublime thrill that ran through mothers, sisters, sweethearts and wives

When the Boys Came Home

In its scenes of high romance, breathless suspense, it is the most gripping picture of the emotional star

PRESIDENT MENOCAL TAKES HAND IN CUBA STRIKE.

Havana, March 8.—President Menocal conferred with representatives of employers and strikers today in an effort to adjust the general strike in Cuba. The employers presented several propositions to the president but have not yet accepted him as arbiter. The strike leaders declare they are willing to accept President Menocal's decision.

WILL NOT CLOSE
COAL MINES.

Indianapolis, Ind., March 8.—General suspension of coal mining throughout the country for a few weeks to stabilize industry was not regarded as probable at the headquarters of the United Mine Workers of America here this afternoon. It was asserted no suggestion that such a course be followed had been made to the officials or considered at headquarters but it was possible that some recommendation of the kind might be made at the meeting of the national policy committee here March 18.

POLICE CAPTAIN FOUND DEAD.

Ottawa, Ill., March 8.—Police Captain Charles Montgomery was found dead in a bathroom of accidental gas asphyxiation here today.

COOK FOUND GUILTY
OF MANSLAUGHTER

CHICAGO, March 8.—J. Norman Cook was found guilty of manslaughter today in the killing of William E. Bradley last summer.

Under the indeterminate sentence law Cook is subject to imprisonment for from one year to life. He displayed no emotion when the verdict was read, although it was particularly shocking to him because of an earlier unofficial assurance he had received that he had been acquitted.

JOINT RATES ON
COAL UPHOLD.

Washington, March 8.—Joint rates on coal from Illinois and Indiana mines allowing a charge to St. Louis 20 cents higher than to East St. Louis, because of the transfer across the Mississippi river, were upheld in a tentative decision today by the interstate commerce commission's attorney examiner.

REPORTS CONDITIONS
AT BREST GOOD

WASHINGTON, March 8.—Brig. Gen. Frank T. Hines, chief of embarkation, who arrived in Washington today and reported to Secretary Baker after a trip abroad said conditions at the embarkation camp at Brest had some improvement and that there was no longer any cause for anxiety.

COMPLETE REORGANIZATION
OF INTERNAL BUREAU

Washington, March 8.—Reorganization of the internal bureau under the new tax has been practically completed and will be announced soon. Five deputy commissioners are to be named and six members will compose the advisory tax board which is to review tax returns and assessments. On the advisory board only five permanent members will be appointed, according to plans of Revenue Commissioner Roper, and the sixth place will be filled with a representative of the industrial group under review at a particular time.

6,000 YANKS FERRY
FRENCH GIRLS.

Paris, March 8.—(Havas).—Within the past year 6,000 Americans in France have married French women, according to the Petit Journal. The brides for most part, says the newspaper, were country girls or employees of town establishments.

"I ADVISE EVERY
SICK WOMAN"

To Try Lydia E. Pinkham's Vegetable Compound.

"I advise every suffering woman to take Lydia E. Pinkham's Vegetable Compound for it has done me so much good. I had female weakness, inflammation, pains in my sides and painful periods. I suffered for six years and tried many remedies without benefit. The doctor said I must have an operation. I read about Lydia E. Pinkham's Vegetable Compound in the newspapers, and since taking it I am cured and have a nice baby four months old. I feel like a new woman, and have recommended your medicine to my friends. I would be glad to have everybody know what your medicine did for me, and if any write to me I will answer all letters."—Mrs. MARY CALIGURE, 317 South Main St., Herkimer, N. Y.

Every woman at some period or other in her life may suffer from just such disturbances as Mrs. Caligure, and if there is no interested friend to advise, let this be a reminder that this famous root and herb remedy has been overcoming these ailments of women for more than 40 years.

If any complications exist, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The results of many years' experience is at your service.

PROMINENT FRENCH
MEN DIED IN BATTLE

Intellectual Classes Paid in Lives to Fearful Extent in the War—Educational Institutions Practically Closed Down.

Paris, March 8.—(Correspondence of The Associated Press).—That French intellectual classes have paid in lives to a fearful extent in the war was disclosed in the casualty returns now being analyzed according to professions in the Paris Journal Intransigent. The records show that 6,227 Frenchmen prominently engaged in educational pursuits have been killed on the battlefield.

Paris alone, the paper adds, has 3,378 students of different universities and colleges, besides 350 journalists and men of letters. The figures for provincial France are not yet available, but they are said to be very large.

Since August 2, 1914, most of France's great educational institutions have been practically closed down, only a few elderly professors and a limited number of younger men, physically unfit for military service, remaining to keep the lamp of knowledge burning.

To repopulate universities and colleges without delay, is, in the view of the authorities, imperative if France is to remain in the foreground of intellectual life. M. Lefevre, Minister of Public Instruction, promises special facilities for students "as soon as they are demobilized" but the machinery by which men are returned to civilian life is working very slowly.

Eclair, another Paris daily paper, in an editorial demands quicker methods. It says that French culture is in danger of losing its leading position if the process of putting the teaching elements back into their proper spheres of activity is not at once accelerated. High cost of living, and the very human desire on the part of demobilized professional men to secure the best possible livelihood, it says, is rapidly leading to a crisis in the teaching world. The paper advocates a scheme by which the still demobilized professors and students should be enabled to resume their lectures and studies at once at the universities and colleges of Lille, Nancy, Strasbourg and other centers of learning in the northern and north-eastern parts of France and in Alsace-Lorraine, if they cannot be sent back to their homes.

TO DEPORT AMERICAN
FROM MEXICO

Mexico City, Feb. 10.—Advices from Cordova state that General Candido Aguilar, chief of military operations in the Gulf coast district, has ordered that an American, H. D. Wilkins, be deported on the charge of aiding the rebels. Wilkins is variously reported as having been employed by a foreign oil company and a foreign electric power company in the Tuxpan region.

PROMINENT CHICAGO
BUSINESS MAN DEAD.

Chicago, March 8.—Frank W. Teeple, active in Chicago business circles and at one time president of the National Association of Piano Manufacturers is dead at a hospital here after a short illness. He was born in Champaign, Ill., in 1860.

10,000,000 LOSSES
RESULT OF STRIKE.

Buenos Aires, Friday, March 7.—Shipping agents estimate that their losses resulting from the strike during the past two months amount to \$10,000,000, according to a statement issued today after a meeting at which measures of combating the port strikers were discussed.

ROUGH VOYAGE

Newport News, March 8.—After a rough voyage occasioning several days delay, the transport Martha Washington arrived here today from France, bringing detachments of the 87th division made up of middle western troops. They include 307 officers and men of the 49th coast artillery, 335th and 326th field artillery complete and 40 casual officers.

330 SUICIDES IN ARMY.

Washington, March 8.—Statistics compiled by the war department show that from the date of the entry of the United States into the war to Feb. 31, 1919, there were 339 suicides in the army. Of these, 193 occurred in the United States and 146 overseas. In making this total public today Gen. March pointed out that it was far below the average per thousand in civil life during the years of 1914-15-16.

EXPLOSION KILLS ONE,
INJURES TWENTY-ONE

San Pedro, Cal., March 8.—An explosion of gas confined in a tank on the freighter West Caval, under construction at the yards of the Southwestern Shipbuilding company caused the death of R. O. Bagin of Long Beach and injured twenty-one other workmen today.

The West Caval was to have been launched March 17. The tank was inside the hull and shipbuilders believed the explosion was caused by the heat and vibration of riveting.

YANKS ENGAGED IN
WAR NUMBER 1,390,000.

Washington, March 8.—American troops actually participating in engagements against the enemy numbered 1,390,000 men, General March announced the figures today, showing that 1,100,000 comprised divisional troops and divisional replacements; 240,000 corps and army troops and 50,000 service of supply troops.

THE LAW IN THE CASE.

When one is considering scurrilous and defamatory anonymous circulars it is worth while to read over the Illinois statute.

Illinois Election Laws—Section 1. Article XX.V. Anonymous Publications Prohibited. That it shall hereafter be unlawful for any person or group of persons . . . to publish, circulate or distribute any pamphlets, circulars, handbill, or other printed matter, relative to the candidacy of any person, or persons seeking nomination or election to any public office; unless the same shall bear thereon in plain type the name and address of the person or persons . . . causing such matter to be published and distributed. . . .

MATTERIAL

Jones-Reinbach. The marriage of John Paul Jones and Miss Vivienne Reinbach was solemnized Friday afternoon at 2:45 o'clock at the First Christian church, Springfield. Rev. William F. Rothenburger, officiating. The couple were attended by Mr. and Mrs. Arthur Baker and Mr. and Mrs. R. L. Reynolds. A wedding supper was served in the evening at the home of Mr. and Mrs. Reynolds, 715 East Cook street, at which the bride's parents, Mr. and Mrs. N. Z. Reinbach, Mr. and Mrs. Baker and Mr. and Mrs. N. Z. Jones were guests.

Mrs. Jones is the daughter of Mr. and Mrs. N. Z. Reinbach of Springfield. The family formerly resided in Franklin where Mr. Reinbach was editor of the Franklin Times. The young lady has many friends in this county who will wish her success and happiness in her married life.

The couple will be at home in Springfield after a short wedding trip to Chicago and the east.

Bostick-Cashin. Jesse Bostick of this city and Miss Margaret Cashin of Prentice were united in marriage Saturday afternoon at 4 o'clock, by Rev. J. H. Morphis, at the Northminster parsonage on North Fayette street. The young people will begin housekeeping on a farm east of the city.

RECEIVES DISCHARGE

Mr. and Mrs. Emmet O. Barber are visiting at the home of Mr. Barber's parents, Mr. and Mrs. Frank O. Barber on North Prairie street. Mr. Barber has been stationed at Camp Taylor for a considerable long period, having entered the service in September, 1917. He received his honorable discharge recently.

When it comes to sickness I sure hold the record since I have been in the army: I was in the hospital three weeks in Camp Logan with the fever caused by the water, but outside of that I have been out every day. I can still feel the effects of gas and I think I always will but that is a mere trifle compared with having a nine (9) inch H. E. burst somewhere in my anatomy.

Well mother, I must close for this time, hoping to hear from you real soon. I remain, Your loving son, Philip M. Hart.

LETTER FROM
PRIVATE WRIGHT

Somewhere in France Jan. 11. Dear Home Folks: I received your box today and thank you very much for sending it to me.

This leaves me in good health. The weather is getting cold. It is just beginning winter over here. We have a great deal of rainy weather.

I guess all the boys are getting their discharge by this time. Well it won't be long before we boys will return with our gold stripes on our arms. Tell the boys they don't know what a soldier life is here. It means a great deal to the world. This war will make better men.

I think I have done my duty over here, not only one day, but every day I am doing my bit with the help of the light of God's strength who has helped me this far.

I don't know just when I will be home, but likely to leave at any time. See we don't know just when.

I got a letter from my teacher Miss Grassley, also Ada, and one from Miss Harris at Macon City, Missouri.

Esquie Mitchell has been sick, but is better now, also Fred Shannon has been sick.

Tracey Williams came down to see me the other day. Gee, he is getting big. His grandma was surprised. I have not seen Reese Faucett for a long time.

I just left the Y. M. C. A. school there for the boys who can not read or write also they have a French teacher to teach them French.

I will give my best regards to all the home folks. I got the picture in my box. It was just fine. Your loving son, Pvt. Charles E. Wright.

MAKER AND MARCH TO
TOUR PACIFIC COAST.

Washington, March 8.—Secretary Baker and General March, chief of staff will leave Washington tomorrow on a three week's tour of inspection of the army camps in the west on the Pacific Coast and along the Mexican border. The first stop will be at Detroit where Camp Custer will be inspected and the official party plans to take the camps in succession from there to Camp Lewis, Washington.

BRIEF NEWS NOTES FROM BLUFFS AND VICINITY

Ladies of M. P. Church Will Serve Dinner for Oakes Land Sale

Bluffs, March 8.—The ladies of the M. P. church will serve dinner in the basement of the church, Monday, March 10, to accommodate those who attend the public sale of the 2400 acres of land belonging to the Harry Oakes estate, which is to be sold at a public sale in front of the Bank of Bluffs on that date.

Fred Westermeyer has arrived home from overseas and has received his honorable discharge.

Mrs. Mary Moore, eldest daughter of Hon. Thomas Meehan, has taken over the management of the Meehan hotel. Mr. Meehan has managed the hotel successfully for a number of years and now plans on taking a much needed rest. Mrs. Moore is fully competent and her many friends wish her success in her undertaking.

Floyd Hierman, who has been seriously ill at the Great Lakes Naval Training Station is convalescing and is expected home on a 15 days furlough soon.

Bluffs precinct has been asked to raise her quota of \$160 for the Armenian relief fund. Henry Knoepfel has been appointed chairman of the committee to raise this fund and as he is 100 per cent patriotic and thoroughly a wide awake hustler no doubt the fund will be quickly raised.

Louis Middendorf, who recently purchased the Martin Nash property in the north part has shipped his household goods from Jacksonville and expects to take up his residence here at once.

Earl Rahe and Laura Vortman of Neelys who were united in marriage Thursday will reside on the John Knoepfel farm recently purchased by the bride's father, Jasper Vortman.

H. A. DeFrates of the north-west part of the country visited the city yesterday.

BOULEVARD DRIVE TO PARK SUGGESTED

Would go Thru Grounds of Morgan County Sanitarium and Around New Reservoir—Plan as Outlined Would be One of Beauty.

Yesterday morning the writer had the pleasure of a ride over the former Oak Lawn retreat and a portion of the land to be bought for the new reservoir, and was shown a suggestion which certainly possesses wonderful possibilities and attractions for Jacksonville.

It is proper to say that the idea originated with Joseph DeGoveia, who is in charge of the overhauling of the building at the retreat for tuberculosis hospital. In fine, the proposition is this. On the west side of the county's property of 60 acres is a magnificent double row of trees between which a splendid driveway could be easily constructed, and which would extend to the property to be bought for the reservoir, and then it could be extended round the proposed lake, either to the east entrance to Nichols park, or what would be still better, if the property immediately north of the west entrance to Nichols park, could be secured in which case the driveway could enter there, which would be much more desirable.

It was not practicable to see Dr. Dewey, but Mr. Batz and Mr. Turnbull expressed themselves very much pleased with the idea and willing to grant freely the use of the grounds for the projected driveway in which case the attractions at Bunn Park in Springfield and many other famous resorts would have to take a back seat.

The scenery along the proposed driveway is beautiful, and every way suited for this purpose. The principal expense would be a bridge across the creek and lake, but it need not be expensive, as it would be well toward the south part, where the bridge would not be long.

Along the route of this proposed drive would be magnificent locations for almost any number of summer cottages and Matanzas and Wilcox Lake would not be in it with the beauties and desirability of this place. When it is considered that the expense of this would be so slight, its desirability can hardly be over-estimated. Persons going to Nichols park would go out to Morton avenue, go under the railroad and then turn in on the county property, thus avoiding all dust, railroad crossings and other inconveniences, and reach the park thru a magnificent drive.

The property would doubtless be leased for the use of summer dwellers, so it would be very profitable, as there is quite a quantity of land in the property in mind which would be available for summer residences. Surely this is a project worth careful consideration and any person who will take the trouble to look it over will see at a glance its attractions.

We now have a park of which we are proud, and with the addition it would have few equals in the country. The lake will be stocked with fish just as fast as possible, so that fishing and boating and other pleasures may be enjoyed along its shores. The Journal hopes this project will receive careful consideration from the proper authorities.

MR. GOVEIA MAKES STATEMENT

Editor Journal:

I have been very much interested in the statement of W. L. Alexander, that he is always for Jacksonville labor and always has been. I well recall that when he asked for bids on the construction of his apartment building on West State street, that I was a bidder along with William McCullough, John Wolke, S. G. Chumley, Joshua Vasconcellos & Sons.

Mr. Alexander told me that he would let the contract to a Jacksonville man and that the lowest bidder would get the contract. I was the lowest bidder and he told me so but the next thing I knew a Chicago contractor was here erecting the building and a number of Chicago workmen came with him.

RECOVERED THE BICYCLE

Yesterday morning the teacher of little Ruth French in the Fourth Ward telephoned, A. C. Rice, where the little girl is staying while in the city, that some one had stolen her wheel on which she rode to school. The teacher also called the police and they started out. Soon after the teacher had called, Miss Florence Rice, not knowing the trouble was walking along the street and saw three little boys trying to ride a wheel but were unable to do so, and it occurred to her that it had been stolen.

She approached them and asked about it and one of them ran fast as he could. She made the other two own up and go with her to the schoolhouse where she supposed the wheel might have been taken and while she was trying to attract the attention of some one the little scamps took to their heels. They were pursued, but managed to escape. There has been much complaint of the theft of wheels the past winter and spring. One "fence" has bought three for a dollar each and no telling how many more.

CONCEALED WEAPON CHARGE PREFERRED

Harry J. Fernandes of North Prairie street and Tony Darush of West Railroad street were taken into custody last night by Captain Sharpe and the night force on a charge of carrying concealed weapons.

Complaints have been coming to the police headquarters for some time regarding the discharge of fire arms in the vicinity of the Washab depot. Almost nightly five or more shots have been fired.

Last night as Patrolman Hurst was coming to the station from the Washab depot he heard five shots fired and immediately went in the direction of the depot. He notified Captain Sharpe who took other members of the force with him and soon came upon Fernandes and Darush on North Prairie street standing at the railroad crossing. When searched both of the young men had revolvers in their possession and were brought to the police station and a charge placed against them of carrying concealed weapons.

Gun toting by young men will be broken up according to the police.

CASE APPEALED

The suit against John Donovan estate on a claim for \$352 has been appealed to the circuit court. In this case W. W. Wright represented the complainant and Carl E. Robinson appeared on behalf of Mr. Murray, executor of the estate.

THE CIVIC SPIRIT.

There is such a thing as CIVIC SPIRIT. Some have it—not. Fortunately for the good of any City or Community there are some both men and women, who HAVE IT: men to whom public office means, not personal profit, but OPPORTUNITY FOR PUBLIC SERVICE; women to whose uncompensated activity these same men owe much of their moral support. It is to such as these, working in harmony with the progressive spirit of its citizens that any Community owes its financial integrity and its material advancement. Those who have at heart first and always the good of our City, are not only glad, but grateful that there are in the present campaign for City Offices men of Civic pride. Men who are ready to stand for election purely for the good of the City.

Those who have followed Mr. Crabtree in the strenuous, war work to which he has given up so much of his time the past two years, know that he has the ability to put thru difficult financial affairs; and as we all know that is of paramount importance at the present time in Jacksonville. Those also—and there have been many among us—who have seen the quick sympathy, the ready tact and the unquestioned integrity which have characterized that work, have high hopes as to the civic future of Jacksonville if we are so fortunate as to

secure his services as Mayor. Mr. Crabtree did not seek to come a candidate for this office. The office in this instance is lag the man; and it is up to us—*not* that "he gets him." A VOTER.

SEAS SOLDIERS SEE HOME PICTURES

Best Thing to Going Home is
See Pictures of Home Town
Pictures Not Shown Indis-
criminately.

ris, Feb. 1.—(Correspond-
of the Associated Press.)—
American soldier wants, more
anything else in the world
now, to go home. For the
000 or more who still have

weary weeks ahead of them here
and with the army of occupation
the next best thing is to see pic-
tures of their home towns.

These pictures are being shown
to them in the miles and miles of
films called "Smiles" distributed
to the camps by the Community
Motion Picture Bureau of the
Young Men's Christian Associa-
tion. Probably there are a hun-
dred miles of the films.

The movies are taken every-
where, from Times Square to the
Cliff House. They show the fam-
iliar streets and the familiar land-
marks and the familiar faces and
they are rushed over here to the
boys and to say that they are wel-
comed is putting it mildly indeed.

The pictures are not shown in-
discriminately. When a picture
from New York, or Kansas City,
or Seattle, or anywhere else, ar-
rives it is sent immediately to the
military organizations hailing
from that particular locality and
it only needs a simple announce-
ment to the effect that a home
town movie will be shown to pack
the Young Men's Christian Associa-
tion hut or theatre to the limit
as many times as it is possible to
show the film before taps blows.

Some days ago in Coblenz,
while a picture from Chicago was
being shown, a soldier rose from
his seat and shouted "There's
my dog," then, after a pause he
added, "and that's my brother
with him."

Many a boy over here has seen
some of his relatives in these pic-
tures and they are more success-
ful than the latest humorous film
or the newest drama.

RED CROSS SOCIETY NEWS

We have just received a tele-
gram from Washington stating
that the Revenue Act, approved
on February 24th, authorizes a
bonus of sixty dollars to all per-
sons who have served in the mili-
tary or naval forces and who have
been honorably discharged since
April 6th, 1917. This bonus is
not payable to the heirs of enlist-
ed men.

It is payable to (1) all officers
of the military and naval forces;
(2) soldiers, field clerks and
nurses of the army; (3) enlisted
men of the regular navy and Ma-
rine corps, all reservists (male
and female), and all persons in
the service of the coast guard,
coast and geodetic survey, and
lighthouse service who have per-
formed active duty with the navy
during the present war; (4) S. A.
T. C. men and released sailors.

Officers, soldiers, field clerks
and nurses of the army who have
been discharged and have rec-
eived their final pay without the \$60
bonus, should write to the zone
finance officer, Lemon Building,
Washington, D. C., stating date of
discharge, and their present ad-
dress, enclosing discharge certifi-
cate which will be returned to the
soldier with the check.

Officers and men of the navy
(including the Marine Corps) who
have been relieved from active
duty, discharged or disenrolled
prior to the approval of the act,
will present their claims for the
bonus, sustained by their dis-
charges or orders to inactive duty,
to the disbursing officer, bureau
of supplies and accounts, navy
department, Washington, D. C.,
for payment. Officers and enlist-
ed men of the coast guard will
present their claims to coast guard
headquarters, Washington, D. C.

In case the original discharge or
orders to inactive duty are lost, it
will be necessary to obtain a cer-
tified copy from the bureau of
navigation, navy department,
Washington, D. C. and a certifi-
cate from the officer by whom
final settlement of pay accounts
was made that no credit of this
bonus has been made by him.

The original discharge certifi-
cate should be sent to Washing-
ton. We suggest that the men
register their discharge papers
with the county clerk or else have
a certified copy made for their
own use before sending the origi-
nal to Washington.

Very truly yours,
J. L. Gillin,
Director, Department of Civil-
ian Relief.

BULGARS SLAUGHTER SERBIAN CITIZENS

Officers Exacted Large Sums of
Money From Population for So-
Called Special Privileges—Per-
sons Unable to Purchase Im-
munity From Persecution Were
Punished.

Nish, Serbia, Jan. 2.—(Corres-
pondence of the Associated Press)
—Bulgaria, during its occupation
of Serbia, found the country not
only an abundant source of food
and material but also of consid-
erable revenue. Bulgarian offi-
cers exacted large sums of money
from the civilian population for
what they considered special
privileges. For immunity from
deportation, for example, some
Serbians were forced to pay the
Bulgars as high as 25,000 francs.

Other Serbian civilians paid large
sums that their daughters might
not be molested, say the Serbians.
Seven thousand francs was the
price paid by Make T. Pasitol,
wheat merchant in the town of
Bel Palanka, near here, to pre-
vent the seizure of Bulgarian sol-
diers of his daughter, twenty
years old. Pasitol's son, seven
teen years old, had been deported
by Bulgars and died of starvation
in an internment camp.

Peter Goshitch, a banker of the
same town, paid six hundred
francs for the release of his
daughter who had been taken
from her home by Bulgars and
held at Nish five days. This
young woman's husband, who was
a priest, was killed by Bulgarians
a short time before, it is charged.

From five hundred to twenty
thousand francs was the tax put
upon Serbians who desired free-
dom to move about, and from this
source the Bulgars reaped a rich
harvest.

In almost every one of the doz-
en towns visited by the Associated
Press correspondent the same
story was told. In the town of
Piot, Ivan Slarkotiel a rug deal-
er, gave twenty thousand francs
to the Bulgars for permission to
carry on his business, but persons
not able to purchase immunity
from persecution were punished.

In many places the Serbian peo-
ple were forbidden to speak the
Serbian language or sing Serbian
songs. In Piot, part of the old
Serbian prefecture building was
used as a prison for civilians who
revolted at the Bulgars' treat-
ment. In a room visited by the
correspondent, the floor was spatter-
ed with blood. Local inhabit-
ants testified that Bulgars had
slaughtered many Serbian civili-
ans there.

HUNGARY MENACED BY BOLSHIEVISM

Outlook Considered Infinitely
Worse Than in German-Austria
—People are Urging Allies to
Intervene.

Vienna, Jan. 13.—(Correspon-
dence of the Associated Press)—
The menace of Bolshevism has
created a critical situation in
Hungary whose general outlook is
considered infinitely worse than
in German-Austria. Under the
present government the condition
of the country is described as
chaotic and a serious Bolshevik
outbreak is expected. With its
army disbanded the government
is unable to offer resistance even
if it had the courage and energy
to do so.

Public moneys, it is asserted,
are being "squandered" at an
"appalling rate," and leading fi-
nanciers express fear of bankrupt-
cy of the state. The whole situa-
tion of the country is reported to
be "inconceivably worse than at
any time during the four years
of war."

The government is preparing to
hold general elections but under
the present conditions this ap-
pears to be a physical impossibil-
ity. There are no lists of voters,
and the franchise has been extend-
ed from 1,500,000 to 7,000,000,
including women who have been
granted suffrage. With part of
the country occupied by enemies,
elections in these districts will be
impossible, it is declared.

The fear of Bolshevism is
growing daily and everywhere the
people are urging that the allies
intervene. They express the fear
that the conditions now existing
in Russia will be repeated in Hun-
gary. Hungarian prisoners of war
have returned from Russia im-
bued with Bolshevik ideas and are
spreading the propaganda. It is
the general opinion of the people
that the Karolyi Cabinet made a
mistake in disbanding the army
leaving the country at the mercy
of the invaders.

While the greatest dissatisfac-
tion is expressed in political cir-
cles and among the people gener-
ally, and ministerial crises are
daily occurrences, no political
party seems willing to assume the
reins of government. Count Kar-
olyi appears to be the only leader
available.

MANY INFLUENZA CASES IN JAPAN

Tokio, Feb. 10.—There were
10,000,000 cases of influenza in
Japan in October, November and
December, according to the report
of the home department officials.
This means that one in every sev-
en of the population has been at-
tacked. During the three months
80 per cent of all deaths were
from influenza-pneumonia.

ILLINOIS COLLEGE NOTES

The College Library has re-
ceived a copy of an important
monograph recently published by
Dr. James Howard Brown, '06, on
"The Use of Blood Agar for the
Study of Streptococci." This pam-
phlet embodies the result of some
very extended and important in-
vestigations which Dr. Brown has
made of the germs that cause
pneumonia and tonsillitis. Dr.
Brown ranks easily among the
most important authorities in the
United States on this subject. The
monograph is published by the
Rockefeller Institute for Medical
Research.

The President's annual recep-
tion to students and faculty will
be given this year jointly by Prof.
and Mrs. Ames and Pres. Ram-
mekamp on Saturday, March 29.
The party will be given this year
at the home of Professor Ames on
Mound avenue.

President Rammelkamp has ac-
cepted an invitation to respond to
a toast at the banquet which will
be given on Tuesday April 29 in
connection with the inauguration
of President McConaughy at
Knox College.

The Devotional Services at
Academy Hall this evening will
be led by Edward Thels.

The College faculty held its
regular monthly meeting in the
college library Thursday after-
noon.

Professor George R. Poage has
been appointed as the College rep-
resentative of the War Savings
Stamps Campaign.

The Academy Hall girls have
been obliged to postpone their
Ministrel Show, which was to
have been given March 10, until
a later date on account of the ill-
ness of some of the members of
the cast.

Mr. Arthur C. Ryan's address
before the students at the chapel
exercise Friday morning was one
of the strongest addresses that
has been given in the chapel this
year. He spoke on the problem of
Constantinople and the Near East.

A plan is under consideration
for making the coming Commence-
ment a great home coming cele-
bration for the Illinois College
men who have been in the service.
President Rammelkamp called to-
gether recently, a committee rep-
resenting the four literary so-
cieties and the faculty to give
preliminary consideration to the
plan. This committee expects to
take up the matter with each of
the societies, and if approval is
given by each of these associa-
tions a general committee will be
appointed. The faculty gave its
approval to the idea at its meet-
ing on Thursday and appointed
Mr. Potter and Dean Hayden to
act with the president as repre-
sentatives of the faculty on the
general committee.

Karl P. Hill, '18, who is now an
ensign in the navy, was a very
welcome visitor on the campus
recently.

Miss Eleanor Turner of Quincy,
visited her sister, Miss Ruth Tur-
ner, '19, at Academy Hall for
several days during the past

week.
Mr. Percy Daigh, ex. '20, was a
visitor on the campus Friday.

CONSERVATORY NOTES

There will be a recital of ad-
vanced students on Thursday
evening March 13th in Recital
Hall at 8 o'clock. The public is
cordially invited.

Miss Rebecca Scheibel, a gradu-
ate of the Conservatory under
Mrs. Wilson, will give her song
Recital at the Institute for the
Blind on next Tuesday evening
March 11th. The influenza epi-
demic prevented the recital being
given early in the winter.

The Phi Omega Society will
hold its annual Open Meeting on
Tuesday evening March 18th in
Recital Hall.

Miss Helene Sorrells went to
Mount Sterling Friday to take
charge of the music for two spe-
cial performances at the Opera
House.

Miss Mabel Forrester, who has
been ill at Passavant hospital for
a week past, is recovering and
will soon be able to resume her
work at the Conservatory.

Mr. Kritch played a violin solo
at the Installation Service in
State Street Presbyterian church
last Wednesday evening March
5th. Mr. Willard Wesner accom-
panied him on the organ, playing
also an organ solo and the rest
of the service.

The Chain of Satisfaction

My customers ask me why I bother to sell equipment and accessories, when I have such a good business selling cars.

Frankly, it's because I think so much of the HUDSON and Essex car, that I sell good things to go with them, so that owners may be perfectly satisfied with their car and help my business grow.

This is a good time now to Re-tire and get your car in first class shape as spring is here.

I carry a full line of accessories to repair or re-finish your car. Take care of your battery, repair it, and put it in first class order.

Why not buy your full season supply of oil? I handle the well known Mobiloil, in 1 gal., 5 gal., 15 gal., 1/2 barrel, and full barrels.

If you have been using Vedol, I can save you money on this while my supply lasts.

I carry several well known makes of casings and tubes. Let me fix you up on your next tires.

MAVERICKS

Of hand we would say that the best remedy for Bolshevism is a few vigilance committees patterned after those of the far west in the early days.

Edgar Crabtree says he never knew what an undesirable citizen he was until he became a candidate for public office.

Representative Brewer of Tampico is the father of the bill for search and seizure of intoxicating liquors in the state after July 1. It is a safe bet that he is the only Brewer in the state who favors the bill.

A young man of Phi Alpha society of Illinois College gave an essay the other night on "What is Woman." We would like to see that essay as we have never been able to figure the matter out to our satisfaction.

Promises are cheap but to use a revision of an old saw, it takes money to make the city go.

The Bolshevik government is mobilizing the professional men, including the authors. This movement may help some of the authors to get their writings published.

The Waverly Journal asks what has become of the old fashioned snow that used to remain on the ground for a month or more. If the editor was in these parts during the winter of 1917-8 there should be no need of asking such a question.

PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

CHAPLAIN DANIEL COUVE

The campaign that has been carried on by the National Committee on the Churches and the Moral Aims of the War is being continued by this Committee through the agency of the Church Peace Union and the World Alliance for International Friendship through the Churches.

France is represented in the campaign by one of her most gallant army chaplains, the Rev. Daniel Couve, carrying the "Croix de Guerre." Chaplain Couve comes to the United States at the invitation of this committee and with the sanction of the French republic. He will bring a message of assurance that the people of France are united with us in the determination to see the establishment of a League of Nations as the result of the war that has been so successfully won.

Chaplain Couve is assistant director of the French Committee's Missionary Society and a leader in International Christian interests. When the war began he served first in ambulance trains, then as Chaplain of the 59th Division of Infantry. He was born in Bordeaux in 1875 and educated at the University of that city. From 1897 to 1899 he was a missionary in the French Congo. From 1907 to 1912 he was secretary of the Interdenominational Society of Foreign Missions, becoming assistant director of the society in 1912. He was French delegate to the Edinburgh Missionary Conference of 1910 and a member for French-Speaking countries of the Continuation Committee of the Conference. In connection with the work of this Committee he visited the United States in 1912.

Chaplain Couve is sent by the Comité Protestant Français, of Paris, which is conducting in France a campaign of war education similar to that conducted by the National Committee on the Churches and the Moral Aims of the War in America. He will spend three months traveling through the country and addressing meetings of clergymen and laymen.

Chaplain Couve speaks English fluently. He has a fund of information and is an eloquent advocate of true Christian Internationalism.

He will be heard at the Congregational church this evening at 7:30. Everybody welcome.

Next Sunday Rabbi Emanuel Sternheim and March 23 R. W. Gammon direct from the war zone.

FARMER GOES MILES TO TELL OF RELIEF

Vinson Lived on Milk and Eggs for Months—Takes Tanlac and Gains 15 Pounds.

"I have come twenty-six miles to tell you what Tanlac has done for me," said Joe M. Vinson, a well known farmer of Love, Miss., while in Memphis recently.

"Three years ago," he continued, "my stomach got all out of order. I couldn't digest a thing and for eight months I lived on buttermilk and the white of eggs. I was too nervous to sleep well, gas on my stomach made me miserable, I had spells of dizziness, would almost faint and could hardly get my breath. I had splitting headaches and was so bilious that I would often vomit."

"Since taking Tanlac my health is as good as anybody's and I feel like a new man. I eat anything I want, sleep like a rock, all the misery and swelling has gone from my stomach. I have gained fifteen pounds and can do a hard day's work. I wouldn't be in the same fix I was before taking Tanlac for my farm and the stock thrown in."

Tanlac is sold in Jacksonville by Coover & Shreve.

Have You Seen the

Diamond La Vallieres

That We Recently Have On Display

When diamonds are mentioned the idea at once enters the average mind that it is something out of reach, but it's not the case by any means.

Lace Work Designs

The ones that we now have in are of the most exquisite workmanship we've ever seen—"Lace" is the only word that adequately describes them, and "exquisite" is not sufficiently strong to convey their beauty.

These La Vallieres are of solid gold and contain perfect white diamonds, but are astonishingly low priced.

If you are considering a gift, we should like to show you these beautiful articles.

YOU have spent your money for a car and the tires are its weakest part.
 YOU well know with the use of air the tires are never worn out, and many of them go to the junk pile from a blowout or puncture long before the tread is worn out. These two things alone cause you to lose 50 to 75 per cent of the actual mileage that you should get out of the tires.
 DON'T lose any more time or money on the air system. DON'T trust to luck when you can trust to NATIONAL RUBBER TIRE FILLER, the perfect substitute for air, and ride with a care-free confidence, free from that ever present nerve-racking dread of tire trouble.

BUILT TO FIT FARM

The Moline Universal One-Man Tractor

Before the first Moline-Universal was built over 5 years ago, we determined exactly the power requirements of the average farm and just what the average farmer desired most in a tractor. The engineering department used as a basis the information gained through a questionnaire answered by over 10,000 farmers. When this information was summed up it was shown beyond a doubt that a tractor to be successful must be able to do all farm work, including cultivating, and that one man must be able to operate both tractor and implement in all operations. It was shown that the total horse and man power hours required during the cultivating season were equal to those required for plowing and harrowing. The farm tractor must do light as well as heavy work or otherwise the number of horses cannot be materially reduced, and it is too expensive to have two tractors, one for heavy work and the other for light work. Thus it can be seen that the Moline-Universal design is based on actual farm requirements, and is in reality the most logical type of tractor. This is being proven every day by thousands of Moline-Universal owners, and while the Moline-Universal has been gradually improved and perfected, it has never been changed in type.

DRIVE THE LIQUOR HABIT FROM YOUR HOME

Can Be Done Secretly

NEW YORK.—Physicians and druggists unhesitatingly recommend Tescum Powders for the liquor habit in any form. They quickly destroy the craving and make whiskey and other alcoholic beverages repugnant. Druggists will tell you Tescum is selling better than any other remedy for the liquor habit. There is a reason for this. It is because it gives better satisfaction. One physician says: "I can stand in the door of my home and throw a stone into a neighbor's yard to whom I gave Tescum powders for drunkenness, and he was completely cured. Have also cured a large number of other patients. A druggist reports: 'Tescum is having an enormous sale. It gives excellent satisfaction.' A lady recently wrote: 'I have used Tescum on my husband secretly and he has not taken a drink in three months.' Another lady says: 'I only wish I had known of Tescum before.' Here is another who tried it. 'After taking two boxes of Tescum I did not crave liquor.' Another writes: 'I don't think it's expensive at all. Just think of the thousands of dollars he has spent for whiskey. The few dollars I spent for Tescum has been worth thousands.' Here is an extract from another letter: 'I sent a box of Tescum to my friend, Mrs. C. M., for her to try on her husband. Hope she will be successful as I have been, for it's wonderful. I will never tell my husband what cured him. And so it goes, one enthusiastic report after another. If you have a relative or friend who drinks, just try it for a few weeks and note the marvelous change. They will soon complain that drink does not taste the same, and in a short time they will stop altogether and never know the reason why.' Note—A leading druggist when shown the above article said: 'Yes Tescum is a very remarkable remedy for the drink habit. It is harmless, wonderfully effective and is having an enormous sale. I advise everyone who wishes to destroy the liquor habit to give it a trial.' You take no risk with Tescum, as it is sold in this city under a steelbond money refund guarantee by all leading druggists. Armstrong & Co., Advertising—Advertisement.

Their residence for the three weeks is in the home of John D. Rockefeller. These young women have found their Y. M. C. A. work to be both pleasant and profitable to themselves, with excellent opportunities for the investment of their talent and training. The New York Conference with its studies and social opportunities are greatly appreciated by them.

Dr. and Mrs. Harker, and Mrs. A. C. Metcalf returned to the college Wednesday evening, after a two weeks' visit in Chicago. They left a six inch snow in the city by the Lake to find a mere covering of snow on the walks in Jacksonville.

Dr. Harker attended the sessions of the National Educational Association and also the meeting of the Educational Commission, which was considering the welfare of the Methodist Educational Institutions in Illinois. The commission recommended that one million dollars shall be added to the endowment of Illinois Woman's college, and that two hundred and fifty thousand dollars be expended for new buildings.

Miss Dorothy Brooks, head of the French department, is entertaining her mother of Menasha, Wisconsin. Mrs. Brooks, whose home was up until seven years ago had been in Connecticut, is pleasantly surprised at the fine intellectual atmosphere of Jacksonville and finds it somewhat difficult to believe her eyes as from day to day she beholds the important work being done by Illinois Woman's college. Like many others who visit the college for the first time, she finds every thing on a larger scale than she had imagined.

The Glee Club under the direction of Mrs. Florence Pierson Hartmann, sang before the Woman's club Saturday afternoon at its meeting in Trinity Chapel. The Rev. A. C. Ryan of Turkey, who addressed the Rotary Club on Friday delivered an impressive address at the Saturday Chappi. His explanation of Turkey's power in the political world was that it was due to three factors: Turkish intrigue, international jealousy, and international indifference. Dr. Ryan stated that there was no hope for the elimination of the Turkish menace unless something approximating the League of Nations be effected with the United States as custodian of those elements which now make Turkey's influences out of proportion to its physical and intellectual strength. "The religion of Jesus," said the speaker, as exemplified by Christian missionaries, reinforced by practical idealism by the United States, must free the world of the unspeakable Turk.

It will be good news to the

many friends of Mrs. Belle Short Lambert to know that she has entirely recovered from her long illness and expects to be in Jacksonville the latter part of May or the beginning of June. Mrs. Lambert is now visiting at the home of her daughter, Mrs. Edward Clifford in Washington, D. C.

The Freshmen will have charge of the Y. W. C. A. meeting Sunday. Miss Ada Clotfelter will be the leader. The World Fellowship classes held their first regular meeting Friday at 6:30 o'clock. Miss Janette Powell gave a talk on war poetry at the Women's Club Domestic Science Round Table last Saturday.

Miss Mamie Kennedy read at the Grace church Epworth league social on Thursday.

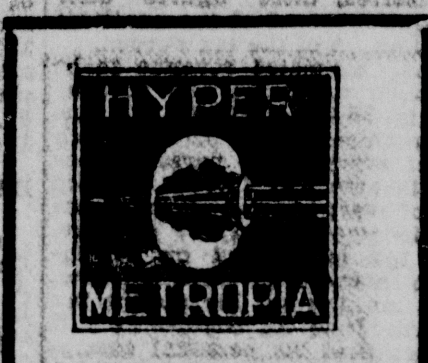

Miss Margaret Constance, Director of school of expression read at the Christian church entertainment on Thursday last.

Work has begun for the Expression contest which is held annually. The interest and enthusiasm predict a good contest to be held in early April.

The Dramatic Club has started upon its spring play, "The Romanians."

HOW THE INCOME TAX LAW WORKS

Illustration Shows How the Very Rich and Those With Moderate Incomes are Affected.

Washington, March 6.—The time has come for John M. Goldbonds and John D. Smithkins—both fictional characters but equally well known in the United States—again to pay their income taxes. John M. will forward to the Collector of Internal Revenue a check for \$793,030. His net income for 1918 was \$1,000,000. Smithkins will pass the Collector \$30. His net income for 1918 was \$2,500. Both are eminently respectable married men.

This is an illustration of the income tax provisions of the new revenue bill. "The income tax is no longer a rich man's tax" is a truthful but not a new saying. Smithkins, however, after contributing his just quota to the Government will have left a considerably larger portion of his income than Goldbonds. The levy touches the pocketbook of every person of moderate means in the United States, but is so graduated that the Goldbonds and the Smithkins each pay according to their income. Last year there were filed up to June 30, 2,319,929 returns of income of less than \$3,000. The tax assessed on these incomes was \$22,395,262.40. The number of returns filed of incomes of more than \$3,000 was 665,623, the tax on which was \$592,613,241.12. Speaking for themselves, these figures offer convincing proof of the equitable distribution of the tax burden.

The estimated revenue to be collected under the new revenue bill is \$3,000,000,000. Returns are required on or before March 15 of every single person whose net income was \$1,000 or more and of every married person whose net income was \$2,000 or more. The tax is assessed on net income in excess of these amounts.

In making out his income tax return, John M. Goldbonds will deduct first his personal exemption of \$2,000 allowed a married man. On the first \$4,000 of his remaining income of \$998,000 he will pay a normal tax of 6 per cent, or \$240. On his income in excess of his exemption and first \$4,000 of income, he will pay a normal tax of 12 per cent, or \$119,280.

In addition he is required to pay a surtax beginning at 1 per cent on the amount of his income between \$5,000 and \$6,000 and increasing by steps of 1 per cent for each \$2,000 of his net income up to and including 48 per cent on net income in excess of \$98,000 and not over \$100,000. From this point the rates are as follows: 52 per cent on his net income in excess of \$100,000 and not over \$150,000; 56 per cent on net income in excess of \$150,000 and not over \$200,000; 60 per cent on net income in excess of \$200,000 and not over \$300,000; 63 per cent on net income in excess of \$300,000 and not over \$500,000; and 64 per cent on the amount of his net income between \$500,000 and \$1,000,000.

John M. pays a normal tax of \$119,280 and a surtax of \$583,510. Smithkins doesn't have to bother about the intricacies of the surtax which applies only to incomes in excess of \$5,000. Deducting his exemption of \$2,000, he pays 6 per cent on \$500. It is assumed that neither Smithkins nor Goldbonds have dependents, other than a wife. The new revenue bill allows an additional exemption of \$200 for each person dependent upon the tax-

payer for chief support, if such person is under eighteen years of age or incapable of self-support. At their option Goldbonds and Smithkins may pay their tax in full at the time of filing their returns, on or before March 15, or in four installments, on or before March 15, on or before June 15, on or before September 15 and on or before December 15. The penalty for failure to make a return on time is a fine of not more than \$1,000, and an additional assessment of 25 per cent of the amount due. For "willfully refusing" to make a return not more than \$10,000 or imprisonment for not more than one year, or both. A similar penalty is provided for making a false or fraudulent return, together with an added assessment of 50 per cent of the amount due.

The Commissioner of Internal Revenue, Daniel C. Roper, however, is giving himself no uneasiness concerning the failure of Goldbonds or Smithkins to file their return and pay the tax on time.

"Experience has proved that the great majority of the American people pay their taxes cheerfully and willingly," said Commissioner Roper. "Of course we have the delinquent and to him, in justice to those who fully comply with the law, no consideration can be given. The Bureau has at its command innumerable sources of information that will disclose tax liability. When the tax dodger is discovered, as he will be, he will be made to pay the full penalties of the law."

Forms for filing income tax returns may be obtained at offices of Collectors of Internal Revenue. Taxpayers whose net income for 1918 was less than \$5,000 should ask for Form 1040-A. Those whose net income was more than \$5,000 should ask for Form 1040.

HAD NECK BROKEN AND STILL LIVES

Camp Sherman, Chillicothe, Ohio, March 7.—Lieutenant John A. Logan, U. S. A., of Cleveland, is one of the few men who have sustained broken necks and is still alive to tell the story of how it happened. The lieutenant is in the base hospital here, and attending surgeons say that he will enjoy life for many years to come despite the broken neck.

Lieutenant Logan, an aviator, sustained the injury while on duty in France. He went up one day over the Vosges sector, and engaged several German planes. A piece of shell from one of the enemy's guns put his motor out of commission, and the officer was forced to bail out. He lost control, and had the preference of diving on a house or landing on the ground. He chose the latter, and when he was dragged from the wrecked machine, it was found that he had received only a few slight scratches. He was taken to the hospital, and, being able to walk, but that night his right side became paralyzed. Surgeons made an examination, and it was found that Logan's neck was broken. This was the fourth accident in which Lieutenant Logan figures, for, previous to going into active service, he was injured in three training accidents.

LAW WOULD SETTLE DISPUTED QUESTION

Springfield, Ill., March 7.—The disputed question as to whether taxicabs and motor vehicles for hire come within the provisions of the public utilities commission act would be settled by a bill introduced by Senator John Denvir of Chicago amending the present regulatory statute. The measure went to the committee on public utilities. No mention is made of "jitneys" operated by individuals. Senator Denvir's bill changes the law to include "taxicab and taxi vehicle owners and taxicab and taxi vehicle operators licensed by cities, villages or other public corporations or the state to carry passengers or goods for hire, whether they propel their conveyances between fixed termini over definite routes or whether they propel such conveyances over no definite routes in the transaction of their business."

The commission has acted in keeping with such a policy, but has not had justification of written law for it. On more than one occasion, the commission has declined to grant a certificate to a taxi company, giving as its reason that such service would duplicate facilities already existing.

PROHIBITION EFFECT ON LIQUOR DEMAND

If Present Demand for Whiskey Continues July 1 Will Find Comparatively Small Amount of Liquor in Bonded Warehouses—Tax Rate Doubled.

Washington, Feb. — National prohibition next July 1 will find only about 50,000,000 gallons of liquor in bonded warehouses, barred from disposition for beverage purposes, if the present demand for whiskey continues during intervening months. Officials who have observed the effect of high taxes in the past believe, however, that withdrawals from bond will decrease under the new revenue law, and that between 60,000,000 and 75,000,000 gallons will be left in warehouses July 1.

It is conceded that it is impossible to foresee the effect of approaching prohibition on the demand for liquor to be stored away by consumers, and officials say a big movement of buying even under the increased tax, may develop and leave the quantity of liquor left in bond even smaller than the advance estimates.

The estimates do not take into consideration liquor which may be stored in cellars or attics of prospective consumers. Nor do they include any stocks which wholesale or retail dealers may not sell before the prohibition wave catches them. These are not measurable by any official reports.

Revenue bureau officials calculate that at present bonded warehouses connected with distilleries but under key of government agents, hold less than 90,000,000 of the 200,000,000 gallons in stock when manufacture ceased Sept. 9, 1917, under the food conservation act. Withdrawals in January and February have been less than the 10,000,000 or more gallons in December, according to indications based on preliminary reports from revenue agents.

Stock of Spirits in Bond

On January first 112,000,000 gallons of distilled spirits were reported in bond, including 6,600,000 gallons not available for beverage purposes. About 15 per cent of those figures must be deducted as allowance for leakage and evaporation from barrels. On Dec. 1, the latest date for which itemized figures were available, the stock of distilled spirits in bond was distributed as follows: whiskey, 108,846,000 gallons; rum, 606,000; gin, 2,338,000; alcohol, 5,760,000, refined alcohol or "high wines," 3,744,000; and brandy, 2,315,000.

The normal rate of demand, measured by withdrawal from bond, had been between 4,500,000 and 6,000,000 gallons a month until last October, when withdrawals jumped to 3,355,000. In November they were 9,597,000 and in December it is estimated they ran over 10,000,000 gallons.

EASLEY'S NEW AND SECOND HAND FURNITURE STORE

217 W. Morgan St. Ill Phone 1371 Bell 664

while in January and February indications are that the demand probably was nearer 9,000,000 gallons. Most of this liquor was taxed when taken out of the bonded warehouse at the rate of \$3.20 a gallon. Under the new revenue act, the rate is doubled, amounting to \$6.40. Consequently the increase amounts to \$3.20 a gallon or 80 cents a quart, and the aggregate tax per quart is \$1.60.

By terms of the pending bill providing for enforcement of prohibition under the constitutional amendment effective next Jan. 16 the president would be empowered to appropriate for government purposes, the stock of liquor left unused in warehouses. The price to be paid for this would be determined by agreement or by a special commission.

WHITE HALL MEN OPPOSE LEAGUE OF NATIONS

Former Four-Minute Men Say They Cannot Support Plan as Outlined by President—Refuse to Make Addresses in Favor of it at Request of Administration—Soldier Tree-Planting April 3—News Notes.

White Hall, Ill., March 8.—G. R. Adams, chairman of the four-minute men of White Hall, has discharged the members of the local organization with appropriately designed papers from the committee on public information, and is in receipt of a request from the League to Enforce Peace to utilize the speakers in behalf of the approaching campaign for adoption of the constitution of the League of Nations. Mr. Adams interviewed the speakers on the proposition, and found them unanimous, so far as his interviews extended, against the present draft of the league constitution, and on giving out the result of his investigation made the statement that he is opposed himself to ratification as the league constitution now stands. Mr. Adams is secretary of the Business Men's Association and a Republican. The interviews ran about thus:

Opposes League of Nations.

Louis Lowenstein, president of the Red Cross chapter and former president of the Association of Drainage District Commissioners of Illinois, a Republican—I approve of the action of the United States senators on the Lodge resolution. I will not lend my voice in approval of the League of Nations as it now stands.

Rev. J. O. Raines, secretary of the Baptist Missionary convention of Illinois, a prohibitionist at the outbreak of the war and since that time a supporter of the war policies of President Wilson—I am in favor of a league of nations, but will not give support to the present program of President Wilson.

Rev. E. C. Lucas, pastor Christian church, a Democrat—anything short of a league of nations would mean a return to the old system in a mad rush for the next war. I would prefer the present league arrangement than none, but I can see that the United States should have more voice in the executive council. However, I shall study the constitution and deliver a sermon on the subject next Sunday night.

E. C. Pearce, accountant and a Republican—I cannot consistently accept service as a speaker in behalf of a League of Nations as at present constituted.

Rev. Lee Howard, pastor M. E. church—I am willing to make speeches on the League of Nations, but they would be far from favorable to the purpose of the campaign that is being organized in behalf of President Wilson's plan. If I were an European I would most likely favor the League of Nations as at present outlined, but we are practically guardians of this hemisphere, and we will not surrender one iota of our sovereignty to Europe and Asia to the detriment of our great destiny. I believe I voice the overwhelming sentiment of the American people.

H. O. Tunison, attorney and a Democrat—Mr. Tunison was out of town, and no one at his office would venture an opinion as to how he stands further than an indication that his service would probably not be available.

Capt. Dean Corsa In U. S.

Capt. Dean Corsa, of the 512th Engineers, arrived at Philadelphia Thursday, according to telegraphic advices to his brother, W. S. Corsa, proprietor of Gregory Farm. Capt. Corsa stated that he was en route to Washington, and that he would proceed to Wytheville, Va., to spend a few days before coming to White Hall. His family has been located at Wytheville since Capt. Corsa volunteered for service and was commissioned a captain of engineers. He organized and managed Gregory Farm Laboratory, and had general direction of the Gregory Farm offices at the time he went into the service.

Mr. and Mrs. W. S. Corsa arrived home Friday from a trip to Chicago and western points.

Soldiers' Tree Planting April 3

The Federation of Women's Clubs and the Junior and Senior classes of the White Hall high school have joined forces in the planting of trees in memory of White Hall soldiers who died while in service in the recent war, and it has been decided that the planting will take place at the soldiers' monument on Thursday, April 3rd. It is the desire of the promoters to bring about a general holiday on this date. The school pupils will march to the monument grounds and the members of the G. A. R. post of White Hall and all visiting comrades will be conveyed in autos. Other details have not been arranged. There is a demand for the services of Hon. C. J. Moynihan of Montrose, Colorado, as the orator.

The women's clubs joining in this project are the Music club, Round Table, Art League and Domestic Science, the first named suggesting and organizing the movement. The Junior and senior classes of the high school were added, and the penny donations of school pupils will be relied upon to a large extent in financing the undertaking. Six trees are to be planted on the above date in honor of the following: James M. Lyons, died March 9, 1918; John Moore, March 27, 1918; Francis Grimes, April 7, 1918; John Fisher, June 19, 1918; Amos Walker, September 26, 1918; Charles H. Martin, October 6, 1918. A recently published list gave the name of Thomas Scott, of White Hall, as killed in action, but he has not been identified here.

Controversy Settled.

Conferences among the women

leaders Friday and Saturday settled the controversy between Whiteside park and the soldiers' monument grounds as to the location. Saturday afternoon Culver G. A. R. post took a hand in the settlement by adopting the following resolution:

Whereas, A movement is on foot by the Federation of Women's Clubs and the Junior and Senior classes of the White Hall high school to plant memorial trees of an enduring variety in memory of the soldiers from White Hall who died in the service during the world war; and

Whereas, A division of opinion has arisen as to the location of these memorial trees. Therefore, be it

Resolved, That Culver Post No. 512, G. A. R., hereby goes on record in behalf of the Soldiers' Monument grounds as the most appropriate location for these memorial trees. These grounds are dedicated to the special purpose of handing down to succeeding generations our gratitude and high appreciation of the soldiers of all wars who gave their lives in defense of American freedom, and which grounds have been permanently improved with a monument dedicated to the memory of the Soldiers and Sailors of the Republic.

Resolved, That Culver Post have the highest consideration of the inspiration and civic value of Whiteside Park to the City of White Hall as a result of the benefactions of Mr. and Mrs. Seth N. Griswold, and we would recommend that there are heroic figures in times of peace among the people of our own city and vicinity who should be fittingly memorialized in an enduring manner—men and women who have led in the material, intellectual and spiritual advancement that we enjoy today—and such monuments properly belong to Whiteside park under the motives actuating the donation and dedication of our already beautiful park.

Adopted at a meeting of Culver Post No. 512, G. A. R., held this 8th day of March, 1919.

S. J. Rigg, Post Commander.

Ask Dad

Just ask Dad to stay at home one day and do the family wash.

Dad won't do it. He'll say there ought not to be a wash day at all—that the home isn't the place to do the wash.

Dad will say to send all the wash to the laundry. And Dad will be right.

All things considered it costs less to have us do the washing than to do it at home.

Have You Examined Your Battery Recently

—to see if the liquid solution was up to the proper level? A storage battery should be inspected at least every two weeks this season of the year. Don't neglect doing this. It may save you a big repair bill later. Nearly all battery troubles are due to the owner's failure to observe this simple instruction. When properly cared for a good battery will serve long and faithfully. On the other hand, if neglected it will quickly depreciate and become a source of constant trouble and annoyance. Bring your battery—no matter what make—to the

Sleep is the Body's Building-up Time

ONLY deep, sound sleep can restore the energy spent in your day's work. People who know the facts are going beyond the mere looks of a bed, and asking about sleeping quality. There isn't anybody anywhere but will sleep better in a Simmons Metal Bed and Slumber King Spring.

THE Simmons Metal Bed is *noiseless*. It locks firm at the corners. The corner locks are made of pressed steel—have much longer bearing surfaces than the average—fit true and snug—not a creak, rattle, or feeling of unsteadiness.

It is perfectly rigid—feels and moves like one solid piece.

The Simmons Pressed Steel Corner Locks are protected by basic patents. They are the most fundamental inventions of modern

bed manufacturing—exclusive with Simmons, not to be duplicated or imitated. And these patented corner locks have made possible the *Three-piece Bed*—the new Simmons idea—the spring forming a single unit with the side rails.

IF you want the most relaxing and constructive sleep anyone can get, you'll find it in a Simmons Twin Bed.

Everywhere people of refinement are learning that there's nothing like a separate bed for promoting perfect rest and good health.

No doubt you're tired of trying to get the right kind of sleep in a bed made merely for looks.

You'd be glad to get a good metal bed. The Simmons Bed comes in brass, and in enamel with or without brass trimmings. Also beautiful natural wood effects.

We have them in stock now and invite you to see and judge their merits for yourself.
